Purpose

The purpose of Administrative Procedure 6150, *Educational Requirements and Options in Secondary Schools*, is to provide guidance and information to administrators and staffs in implementing curriculum and educational procedures and to provide counsel to students and parents in educational decision-making in the public secondary schools of Prince George's County.

Policy

Maryland State Department of Education's Code of Maryland Regulations (COMAR) Bylaw 13A.03.02, provides Graduation Requirements for Public High Schools in Maryland. These regulations reflect a broad view of the educational needs of the state and must be supplemented by the local system and at individual school levels to ensure the best possible education for all youth.

Administrative Procedure 6150 includes information relevant to secondary students in Prince George's County Public Schools. Federal and State law provide additional guidelines. Because of frequent changes in the law governing student enrollment in courses, educational requirements, and options in secondary schools, information in this publication may be superseded. Contact the appropriate staff listed in each section or in the directory for clarification of any information in this Administrative Procedure.

Board of Education policies may be found on the website at <https://offices.pgcps.org/generalcounsel/boardpolicies/bp0000.aspx>.

Administrative Procedures may be found on the website at <https://www.pgcps.org/offices/general-counsel/administrative-procedures>.

Background

Every reasonable effort will be made by the Prince George's County Public Schools to provide an appropriate educational program for each student within the system. At the secondary level this means that programs will be offered which enable students to acquire information, learn specific skills, develop self-direction, acquire critical thinking skills, be life-long learners, earn college credits, and have entry-level career skills. These programs are designed to enable students to earn their high school diplomas.

No course may be offered by a school for credit without prior review and approval from Division of Academics executive staff and, if needed, additional approval of the Chief Academic Officer, the Chief Executive Officer, and Board of Education. The courses listed make up the instructional program for the school system's secondary schools. However, only approved core curricula are available at all sites, and courses may not be offered during this school year if enrollment or staffing does not permit. Sample planners are based on an eight period A day and B day schedule.

When a school adds a course, a designee must requisition textbooks and teacher guides. This should be done once budgets have been submitted and approved. If a school decides to drop a completer or International Baccalaureate course, the principal must contact the content area for a phase-out plan to meet student needs.

For students enrolled in summer programs at the end of each school year, the applicable administrative procedure is the one that was in effect in the just completed school year.

MIDDLE SCHOOL

Middle School Schedule

According to COMAR, middle school students must take the following courses each year. See Middle_School Course Offerings for descriptions.

- Reading/English Language Arts
- Mathematics
- Science
- Social Studies
- Health Education
- Physical Education
- Fine Arts (Music, Dance, Theatre, Visual Arts)

Additionally, COMAR requires Middle School students to take one Computational Thinking/Learning course by the end of their 8th-grade year.

To prepare for advanced coursework and an enriched academic experience, students should consider these additional recommended courses.

- Family and Consumer Sciences
- World Languages*
- Media Arts

Students interested in focused, in-depth experience should consider these programs by application or selection process.

- Advancement Via Individual Determination (AVID)
- Creative and Performing Arts
- Chinese, French, and Spanish Immersion
- Montessori
- Project Lead the Way Gateway to Technology
- Talented and Gifted

* Elementary schools housing 6th graders may offer Introduction to the Language in order to prepare students with the requisite courses for the IB and AP programs.

Students taking a World Language in middle school MUST take the introductory language course and continue with the next sequential course in the same language in order to receive high school credit in World Language Levels 1, 2, and 3. If a student takes a Level 1 language in middle school and then takes the Level 2 in high school, the Level 2 must be a continuation of the Level 1 course or the student may do Levels 1, 2, and 3 of the same language in middle school to receive high school credit.

Required Maryland State Assessments

The Maryland College and Career Ready standards help our students acquire the knowledge and skills needed to thrive in a competitive, 21st century economy. Goals related to our Maryland standards include:

- Prepare all students for college and today's workforce.
- Focus on 21st century skills--including critical thinking, clear writing, and problem-solving.
- Create consistent learning goals across the state, regardless of where students live.

The Maryland Comprehensive Assessment Program (MCAP) includes an annual year-end test in English Language Arts/Literacy and Mathematics in Grades 3-8 and high school. This is a test requirement of the federal Every Student Succeeds Act. These tests are given in the spring of each year, usually in April and May.

Students in grade 8 also participate in a MCAP Social Studies test in May and June of each year. The first administration occurred in Spring 2022.

Students in Grade 8 also participate in the Maryland Integrated Science Assessment (MISA) each year in March. This assessment was created to measure Next Generation Science Standards, which have been implemented as a curriculum in the state of Maryland.

Schools choose testing dates within the established testing windows for each of these assessments.

Scores from all MCAP state tests are posted on the web at www.mdreportcard.org.

Sample test items for the English Language, Mathematics and Science assessments are available at <https://support.mdassessments.com/practice-tests/>.

Score reports for individual students are sent to local school systems. The school systems then distribute the scores to the parents.

Middle School Core Courses

English

Reading/English Language Arts 6

This course, designed for sixth graders, focuses on instruction of the Maryland College and Career Ready Standards (MCCRS) in reading, writing, speaking, listening, and language. Reading and writing strategy instruction focuses on literary and informational texts, as well as success in real world applications and on the Maryland Comprehensive Assessment Program (MCAP) assessment.

Reading/English Language Arts 7

This course, designed for seventh graders, focuses on instruction of the Maryland College and Career Ready Standards (MCCRS) in reading, writing, speaking, listening, and language. Reading and writing strategy instruction focuses on literary and informational texts, as well as success in real world applications and on the MCAP assessment.

Reading/English Language Arts 8

This course, designed for eighth graders, focuses on instruction of the Maryland College and Career Ready Standards (MCCRS) in reading, writing, speaking, listening, and language. Reading and writing strategy instruction focuses on literary and informational texts, as well as success in real world applications and on the MCAP assessment.

*Sheltered courses refer to classes that are designed to teach both academic content and language to students. These classes may contain only English Learners (ELs) or a mix of ELs and mainstream students. Content is not altered, but presented using a variety of instructional strategies that make content accessible for ELs, while developing English vocabulary concepts.

Middle School Core Courses

Mathematics

Math 6

This course covers the 6th Grade Maryland College and Career Mathematics Standards. The 6th grade standards focus on developing a solid foundation in ratios and proportional relationships; the number system; expressions and equations; geometry; and statistical variability and distributions. The Standards for Mathematical Practice are woven throughout the course.

Math 7

This course covers the 7th Grade Maryland College and Career Mathematics Standards. The 7th grade standards focus on developing an understanding of and applying proportional relationships; working with expressions and linear equations; applying geometry; and drawing inferences about populations based on samples. The Standards for Mathematical Practice are woven throughout the course.

Math 8

This course covers the 8th Grade Maryland College and Career Mathematics Standards. The 8th grade standards focus on developing an understanding of irrational numbers; reasoning and solving linear equations and systems of linear equations; using functions to describe quantitative relationships; analyzing geometrical figures; understanding and applying the Pythagorean Theorem; and investigating patterns of association in bivariate data. The Standards for Mathematical Practice are woven throughout the course.

CONTENT	GRADE 6	GRADE 7	GRADE 8
MATHEMATICS	<ul style="list-style-type: none"> Math 6 Accelerated Math 1 	<ul style="list-style-type: none"> Math 7 Accelerated Math 2 	<ul style="list-style-type: none"> Math 8 Foundations for Algebra Algebra 1

Accelerated Math 1 compacts all 6th grade Maryland College and Career Mathematics Standards and half of the 7th grade Maryland College and Career Mathematics Standards into a one-year course. Students will build foundational skills of ratios and proportional relationships; the number system including all rational numbers; algebraic expressions and equations; geometry; and statistical variability and distributions. The Standards for Mathematical Practice are woven throughout the course.

Accelerated Math 2 compacts all 8th grade Maryland College and Career Mathematics Standards and half of the 7th grade Maryland College and Career Mathematics Standard into a one-year course. Students will develop an understanding of irrational numbers; formulate and reasoning about expressions and solving linear equations and systems of linear equations; understand the concept of function and using functions to describe quantitative relationships; analyze geometrical figures; apply the Pythagorean Theorem; apply statistical variability and investigate chance processes and probability models. The Standards for Mathematical Practice are woven throughout the course.

Foundations for Algebra covers the 8th Grade Maryland College and Career Mathematics Standards with extensions to High School conceptual categories that fully cover linear functions and equations. The standards focus on developing an understanding of irrational numbers; reasoning and solving linear equations and systems of linear equations, connecting ratio and proportional reasoning to lines and linear functions; defining, evaluating, comparing, and modeling with functions; analyzing geometrical figures, and extending understanding of statistics and probability. The Standards for Mathematical Practice are woven throughout the course.

Middle School Core Courses

Science

Science 6

This course is designed to engage students in a comprehensive program as they work to make sense of the natural and designed world through phenomenon-based instruction and the Science and Engineering Practices (SEPs) and Crosscutting Concepts (CCCs) of the Next Generation of Science Standards (NGSS). The Disciplinary Core Ideas (DCIs) for sixth grade include: forces and motion, energy changes, electric and magnetic forces, gravitational interactions, states of matter, heat transfer, human impact on the environment, Earth’s place in the universe, and systems within living things. In this course, students are expected to consistently apply the SEPs and demonstrate the correlation among the CCCs in order to make sense of and connect the DCIs across disciplines of science.

Science 7

This course is designed to engage students in a comprehensive program as they work to make sense of the natural and designed world through phenomenon-based instruction and the Science and Engineering Practices (SEPs) and Crosscutting Concepts (CCCs) of the Next Generation of Science Standards (NGSS). The Disciplinary Core Ideas for seventh grade include: atomic composition, chemical processes, photosynthesis and respiration, reproduction and genetic variation, interactions in ecosystems, and weather and climate. In this course, students are expected to consistently apply the SEPs and demonstrate the correlation among the CCCs in order to make sense of and connect the DCIs across disciplines of science.

Science 8

This course is designed to engage students in a comprehensive program as they work to make sense of the natural and designed world through phenomenon-based instruction and the Science and Engineering Practices (SEPs) and Crosscutting Concepts (CCCs) of the Next Generation of Science Standards (NGSS). The Disciplinary Core Ideas for eighth grade include: waves and their applications in technologies, genetic mutations and variation, artificial selection, the fossil record, developmental relationships among organisms, adaptation, growth of organisms, survival and natural selection, Earth’s history, Earth’s systems, and Earth and human activity. In this course, students are expected to consistently apply the SEPs and demonstrate the correlation among the CCCs in order to make sense of and connect the DCIs across disciplines of science. This course also includes review of sixth and seventh grade topics in preparation for the Grade 8 Maryland Integrated Science Assessment (MISA).

* ESOL CABLE Science is for Newcomer/Beginning English Learners (ELs) in Grades 6-8 and may be taken only once by a student.

Middle School Core Courses

Social Studies

World Cultures and Geography Part 1: Western Hemisphere

The 6th grade social studies course is the first of a two-year World Cultures and Geography program of study. This course will explore the Western Hemisphere that includes the history, geography, and culture of the United States, Canada, Latin America, Mexico and Central America, the Caribbean, and South America. Reading, writing, literature, and critical-thinking skills are integral parts of the course. This middle school social studies course emphasizes development of knowledge and skills that will prepare students for success at the high school level.

World Cultures and Geography Part 2: Eastern Hemisphere

The 7th grade social studies course is the second year of a two-year World Cultures and Geography program of study. This course explores the continents, countries, and regions of the Eastern Hemisphere. The major emphases of the course are the geography, history, people, and contemporary issues of Africa, Europe, the Middle East, Asia, and Australia. Reading, writing, literature, and critical-thinking skills are integral parts of the course. This middle school social studies course emphasizes development of knowledge and skills that will prepare students for success at the high school level.

United States History I, Revolution to Reconstruction

The 8th grade social studies course focuses on the history of the United States from 1776 through 1877. An appreciation for the American heritage of the United States is developed through the study of important events in our nation's history. Emphasis is on the American Revolution, the writing of the U.S. Constitution, and the diverse history of the 1800s. Reading, writing, literature studies, use of primary documents, and critical-thinking skills are integral parts of the course. This middle school social studies course emphasizes knowledge and skills acquisition that prepare students for success at the high school level. This course also includes review of sixth and seventh grade topics in preparation for the Grade 8 Maryland Comprehensive Assessment Program (MCAP) Middle School Social Studies Assessment.

* ESOL CABLE Social Studies is for Newcomer/Beginning English Learners (ELs) in Grades 6-8 and may be taken only once by a student.

Middle School Quality Point Average

The following numerical equivalents will be used in computing the QPA from report card letter grades. Weighted refers to courses receiving a numerical advantage in calculating grade point average. In the case of honors, the advantage is an additional .5 points added to the grade value. Weighted credit will only be applied to courses that are eligible in PGCPs. Honors weight is effective school year 2016-2017 and after.

Quality Points		
Grade	Honors Weighted	Regular Non Weighted
A	4.5	4.0
B	3.5	3.0
C	2.5	2.0
D	1.5	1.0
E	0.0	0.0

High School Graduation Credit for Middle School Students

Middle school students who meet prerequisites for a high school course may earn credit toward high school graduation, where options are available.

- The high school courses offered at middle school are identified by the 'Credit Earned Prior to High School' flag in SchoolMAX.
- Grades and credits will be reflected on the student's permanent record.
- All A, B, C, D, and E grades are calculated into the cumulative weighted and cumulative unweighted grade point average once the student enrolls in high school.
- The university style transcript is available for high school students only. High school credit bearing courses are visible on the university style transcript once the student has enrolled in high school.
- Inclusion of the credit earned prior to high school will first appear in the high school grade point average on the Quarter 1 report card under the cumulative calculation.
- If a student retakes one of the high school courses that was taken in middle school for which credit was earned, the high school counselor will contact the middle school counselor to initiate a process to exclude the lower grade by the middle school transcript manager. The higher grade will be calculated into the GPA.
- A middle school student enrolled in a high school level course who withdraws after 20 days from the start of a year-long course (or 10 days from the start of a semester course) will receive a "W" on their high school transcript. Courses with W codes will not receive credit and will not be calculated into the cumulative GPA.

Schools should review the acceleration process per Administrative Procedure 5123.2 General Procedures Pertaining to Promotion, Retention and Acceleration of Students. For more information on middle school or high school courses, visit the PGCPs webpage at this link: <https://www.pgcps.org/offices/chief-academic-officer/courses-and-programs-of-study>.

Middle School Student Service-Learning Requirements

Middle school students are required to earn a minimum of eight (8) hours prior to entering high school. For additional information and guidelines pertaining to Student Service-Learning, please refer to Administrative Procedure 6151 and refer to the Service-Learning section of this document.

Middle School Signature Programs

Contact the counseling office at the appropriate middle school at least a year prior to planned enrollment for application and admissions procedures.

Advancement Via Individual Determination (AVID)

Located at Accokeek Academy, Benjamin Stoddert, Benjamin Tasker, Buck Lodge, Charles Carroll, Dwight D. Eisenhower, Drew-Freeman, Ernest Everett Just, G. James Gholson, Gwynn Park, Isaac Gourdine, Kenmoor, Kettering, Martin Luther King, Jr., Nicholas Orem, Oxon Hill, Samuel Ogle, Stephen Decatur, Thomas Johnson, Thurgood Marshall, Walker Mill, and William Wirt Middle Schools. AVID is a program designed to support students who are in the “academic middle” but have a desire to go to college and the willingness to work to achieve. AVID focuses on accelerating a student’s performance through challenging coursework and focused support. Selected students are capable of completing a college-prep curriculum but are falling short of their potential. The core component of the program is the AVID elective course where students receive guidance and academic training to support them as they strive to achieve in the most rigorous courses. AVID’s teaching strategies, curriculum, and methodologies are used not only in the AVID elective class but in the classrooms of AVID trained, core content area teachers school-wide.

Chinese Immersion

Located at Greenbelt Middle (Grades 6-8), the Chinese Immersion Program is where academic subjects are taught in Chinese. Chinese speaking teachers immerse students in Chinese as they learn Prince George’s County Public Schools content: Chinese Language Arts and Science. Students who progress to grade 9 at Largo High School complete two courses, one in Language Arts/Literature and one in culture of the Chinese-speaking world. Students who complete the K-12 program have the opportunity to earn the Maryland Seal of Biliteracy distinction. Students also have the opportunity to earn a diploma from the Taiwan government with a passing score on the Children’s Chinese Competency Certification (CCCC) assessment.

Creative and Performing Arts

Located at Thomas Pullen (K-8), Hyattsville (6-8), and Benjamin Foulois (K-8), the Creative and Performing Arts Programs are designed to develop the interests and talents of students in the arts and feature an enhanced interdisciplinary academic program that encourages creative and artistic expression. Experiences and training challenge and develop skills of all students and provide exceptional opportunities for artistically talented students. The curriculum provides in-depth experiences in each art discipline, plus related arts experiences and an infusion of the arts in the overall curriculum. Although not all disciplines are available at all three schools, students may audition for Band, Creative Writing, Dance, Drama, Keyboard, Media Arts, Strings, Vocal, and Visual Arts. Thomas Pullen is open to students in Kindergarten through eighth grade who live north of Central Avenue (Route 214). Benjamin Foulois is open to students in Kindergarten through eighth grade who live south of Central Avenue (Route 214). Entrance into Pullen and Foulois is by lottery in Grades K-5, and by audition only in Grades 6-8. Hyattsville Middle School is open to sixth, seventh, and eighth grade students, via audition, within a limited boundary.

French Immersion

Dora Kennedy and Maya Angelou French Immersion are full immersion programs starting in Kindergarten where all academic subjects are taught in the French language. Each school has earned the Label FrancEducation seal of high quality bilingual education from the French government. French speaking teachers immerse students totally in French as they learn the Prince George’s County Public Schools curriculum in mathematics, science, social studies, and Language Arts. English/Reading Language Arts instruction begins in second grade. International travel is an enrichment part of the Immersion Program. Students also study Russian or Italian. In addition, Algebra and Geometry are possible options in math. Students who progress to the high school level complete two courses, one in Language Arts/Literature and one in culture of the francophone world. French Immersion students are encouraged to apply to the International Baccalaureate Program as they matriculate to high school or to complete the French Immersion program, Grade 9 at Largo High School and Grades 10-12 at Central High School. Students who complete the K-12 program have the opportunity to earn the Maryland Seal of Biliteracy distinction. Students also have the opportunity to earn a diploma from the French government with a passing score on the Diplôme d’Etudes en Langue Française (DELF) assessment.

International Baccalaureate Middle Years

All students in the Middle Years Programme study eight subject groups – individuals and societies, mathematics, two languages, science, the arts, physical and health education, and design – through the global contexts of identities and relationships, orientation in space and time, personal and cultural expression, scientific and technical innovation, globalization and sustainability, and fairness and development. The program requires thorough study of the various disciplines, advances a holistic view of learning, promotes academic rigor, and prepares students for entry into the high school diploma program. The following schools are authorized to offer the Middle Years Programme: Dwight D. Eisenhower and James Madison Middle Schools and Frederick Douglass High School.

Montessori

The Montessori Middle School Program completes the Montessori studies for students progressing from primary and lower elementary Montessori programs to the seventh and eighth grades. Students who would enter at the kindergarten through eighth grade must be currently enrolled in a certified Montessori school. John Hanson, Judith P. Hoyer, and Robert Goddard Montessori Schools are dedicated facilities. An interdisciplinary teaching team provides the Montessori Program for multidisciplinary learning to include English Language Arts, mathematics, science, and social studies. Taught by Montessori accredited teachers, young children are guided in developing an inner discipline, strengthening their coordination, and extending their concentration span. Students may apply for entry to Biotechnology, Biomedical, Military Academy, Center for the Visual and Performing Arts and / or Science and Technology high school programs.

Project Lead the Way (PLTW) Gateway

Located at Stephen Decatur, Ernest Everett Just, Thurgood Marshall, Nicholas Orem, and Benjamin Stoddert Middle Schools, Project Lead the Way (PLTW) Gateway addresses the interest and energy of middle school students while incorporating national standards in math, science, and technology. PLTW Gateway is “activity-oriented” to show students how technology is used in engineering to solve everyday problems. The curriculum provides project-based learning—a hands-on approach—that is exciting and fun and that relates technology to students’ daily lives. It also promotes communication and collaboration by emphasizing a teaming approach in the instructional units. PLTW Gateway consists of independent units taught in conjunction with a rigorous academic curriculum: Automation and Robotics, Design and Modeling, Energy and the Environment, Flight and Space, Green Architecture, Magic of Electronics, Science of Technology, Medical Detective, Apps Creator, and Computer Science for Innovators and Makers. Students taking PLTW Gateway in Grades 6, 7, and 8, may satisfy their computational learning requirement.

Public Charter Schools

Public Charter Schools are nonsectarian, tuition-free public schools chosen by parents, and are open to all students who reside in Prince George’s County on a space available basis. Public Charter Schools do not have attendance boundaries like traditional schools. A random selection lottery application system is used for enrollment in Public Charter Schools (see <https://offices.pgcps.org/charters/> for more information). By design, a Public Charter School has more freedom than a traditional school in return for a commitment to meet higher standards of accountability.

Spanish Immersion

Kettering Middle School is a Spanish Immersion school where academic subjects are taught in Spanish. Spanish speaking teachers immerse students in Spanish as they learn the PGCPs curriculum in mathematics, science and/or social studies, and Language Arts. International travel is an enrichment part of the Immersion Program. Students also study Chinese as a world language. Students who complete the K-12 program have the opportunity to earn the Maryland Seal of Literacy distinction. Students also have the opportunity to earn an international diploma with a passing score on the DELE (The Diploma of Spanish as a Foreign Language) assessment. The DELE Spanish Diplomas are official titles certifying degree of competence and mastery of the Spanish language, granted by Spain’s Ministry of Education, Culture and Sport through the Instituto Cervantes.

STEM Middle School Project (STEM MSP)

Located at Oxon Hill Middle School and Thomas Johnson Middle School, the Science, Technology, Engineering and Mathematics (STEM) Middle School Project (MSP) will provide students with support, motivation, and guidance in preparation for transition into high school. The goal of the STEM MSP is to increase student achievement and interest in STEM through courses, summer bridge programs and out of school STEM experiences. In the STEM MSP, students will be provided opportunities to engage in academic concepts coupled with real-world lessons as they apply content knowledge in STEM to make connections, collaborate, think critically, question, reason, innovate, research and communicate.

Talented and Gifted (TAG) Center

The TAG Center Program provides full-day advanced, enriched, intensive educational experiences to meet the unique and specialized needs of highly able students who qualify for the Talented and Gifted services using PGCPSS identification criteria. TAG identified students are eligible to apply for possible entry into a TAG Center Program through the lottery application process. The TAG Center middle schools are located at Accokeek Academy, Benjamin Tasker, Greenbelt, Kenmoor, and Walker Mill middle schools.

HIGH SCHOOL

High School

Graduation Requirements *Class of 2025 and Beyond*

Effective with the Graduating Class of 2025 and beyond (entering freshman of Fall 2021), graduation requirements to earn a Maryland High School diploma are as follows. Reference the table of contents to see the Required Subject Area Descriptions pages for further information.

HIGH SCHOOL

SUBJECT AREA	SPECIFIC CREDIT REQUIREMENTS	ASSESSMENT REQUIREMENTS
English	4 credits	<p>According to MSDE's Division of Assessment, Accountability and Performance Reporting Updates in September 2022, students were waived from the accountability assessment requirement for the 2019-2020 school year due to the global pandemic. For school years 2020-2021, 2021-2022, and 2022-2023, students would be required to participate in, but not pass, the assessments for Algebra 1, English 10, Life Science, and Government.</p> <p>The current Code of Maryland Regulations (COMAR) 13A.03.02.06 identifies the following courses as having an End of Course (EOC) Exam requirement:</p> <ul style="list-style-type: none"> Algebra 1 English 10 Life Science Government <p>On June 28, 2022, the Maryland State Board of Education (MSBOE) approved a waiver for the EOC Exam requirement for all courses in the 2022-2023 school year. The waiver states that the EOC Exams are to be counted as 20 percent of the final course grade (COMAR 13A.03.02.06.H). The MSBOE has determined that EOC exams will be implemented starting in the 2023-2024 school year. The MSDE is working to support the EOC Exams for Life Science and Government. COMAR 13A.03.02 Graduation Requirements for Public High Schools and EOC Exam implementation are pending revisions.</p> <p>Beginning with the 2023-2024 school year, all first-time 9th grade students will have the EOC Exam incorporated into their final course grades as required by 13A.03.02 Graduation Requirements for High Schools in Maryland.</p> <p>Refer to the Assessment Requirements page and online to the Maryland Comprehensive Assessment Program website for updates regarding End of Course Exams.</p>
Mathematics	4 credits ✓ 1 in Algebra 1 ✓ 1 in Geometry ✓ 2 additional mathematics credits ✓ Enrollment in a math course each year in high school	
Science	3 lab science credits (one from each category) ✓ 1 in Life Science ✓ 1 in Physical Science ✓ 1 in Earth and Space Science	
Social Studies	3 credits ✓ 1 in U.S. History II ✓ 1 in Local, State, and National Government ✓ 1 in World History	

OTHER REQUIREMENTS

Fine Arts	1 credit
Physical Education	0.5 credit ✓ Personal Fitness
Health Education	0.5 credit ✓ Health 1 0.5 credit ✓ Health 2
Financial Literacy	0.5 credit
Computer Science, Engineering, or Technology Education	1 credit
Completer** and Electives <small>**Completer refers to a specified sequence of courses required for completing graduation requirements</small>	<p>2 credits of the same World Language or American Sign Language <u>and</u> any remaining credits in electives</p> <p>OR</p> <p>Complete (3–9 credits) of a Maryland State Department of Education (MSDE)-approved sequence of courses <u>and</u> any remaining credits in electives</p>

Prerequisites: Enrollment in a course may be allowed only if a previous course has been completed. See the High School Courses and Programs of Study publication which describes the content of each course offered in Prince George's County Public Schools and course prerequisites.

Credits: Twenty-two (22) credits are required per COMAR 13A.03.02.01C. Students must be enrolled and have taken a minimum of four full credit courses or a combination of full and partial credit courses to total a minimum of four credits over the course of the academic year. The minimum of four credits worth of courses must include at least one high school course; remaining courses may include Dual Enrollment. Seniors who have completed four years of high school are exempt from the minimum enrollment requirement. All MSDE graduation requirements must be satisfied.

Student Service-Learning: The student shall complete a locally developed, state-approved program that includes service-learning infusion in designated courses, preparation, reflection, and a specified number of hours of independent service.

High School

Graduation Requirements *Class of 2021 through 2024*

Effective with the Graduating Class of 2021 through 2024 (entering freshman of Fall 2017 through Fall 2020), graduation requirements to earn a Maryland High School diploma are as follows. Note updates effective with the class of 2019 and 2024 (entering freshmen of Fall 2015 and 2020). See the Required Subject Area Descriptions pages for further descriptions of requirements.

SUBJECT AREA	SPECIFIC CREDIT REQUIREMENTS	ASSESSMENT REQUIREMENTS
English	4 credits	Pursuant to COMAR 13A.03.02.09, students must: a. Achieve a passing score on the Maryland High School Assessment (MHSA) and Maryland Comprehensive Assessment Program (MCAP) for Algebra I and English 10, in the following way: (i) For school years 2016–2023, a score of 725 and (ii) Assessment in English 10 and/or Algebra I, the passing score on the retest shall be the passing score in the year in which the student first took the assessment. b. Achieve a passing score as established by the Maryland State Department of Education (MSDE) on the Maryland High School Assessment for Government. c. Students are required to take the Maryland High School Life Science Assessment. d. Achieve a combined score(s) as established by MSDE on the assessments; e. If a student has not achieved a passing score on the assessment in English 10 and/or Algebra I, achieve a score as established by MSDE on MSDE-approved assessments for Algebra, and/or English, aligned with the Maryland assessments such as Advanced Placement examinations, SAT, ACT, and International Baccalaureate examinations.
Mathematics	3 credits ✓ 1 in Algebra 1 ✓ 1 in Geometry ✓ 1 additional mathematics credit ✓ Enrollment in a math course each year in high school	
Science	3 lab science credits (one from each category) ✓ 1 in Life Science ✓ 1 in Physical Science ✓ 1 in Earth and Space Science	
Social Studies	3 credits ✓ 1 in U.S. History II ✓ 1 in Local, State, and National Government ✓ 1 in World History	

OTHER REQUIREMENTS

Fine Arts	1 credit
Physical Education	0.5 credit ✓ Personal Fitness
Health Education	0.5 credit ✓ Health Issues
Financial Literacy	0.5 credit; Effective with the graduating class of 2024, students in Prince George's County Public Schools are required to complete one-half (0.5) credit in Financial Literacy in order to graduate.
Technology Education	1 credit
Completer** and Electives	<p>2 credits of either World Language or American Sign Language and any remaining credits in electives. Effective with the class of 2019 (entering freshmen of Fall 2015), PGCPSS no longer requires two years of the same world language for students beginning a Level 1 course in high school. MSDE requires that American Sign Language be taken in sequential order to meet graduation requirements.</p> <p>OR</p> <p>2 credits of Advanced Technology Education, available through school year 2023-2024, and any remaining credits in electives</p> <p>OR</p> <p>Complete (3–9 credits) of a Maryland State Department of Education (MSDE)-approved sequence of courses and any remaining credits in electives</p>

Prerequisites: Enrollment in a course may be allowed only if a previous course has been completed. See the High School Courses and Programs of Study publication which describes the content of each course offered in Prince George's County Public Schools and course prerequisites.

Credits: Twenty-one (21) credits are required per COMAR 13A.03.02.01C. Effective with the Class of 2019 (entering freshmen of Fall 2015), students must be enrolled and have taken a minimum of four full credit courses or a combination of full and partial credit courses to total a minimum of four credits over the course of the academic year. The minimum of four credits worth of courses must include at least one high school course; remaining courses may include Dual Enrollment. Seniors who have completed four years of high school are exempt from the minimum enrollment requirement. All MSDE graduation requirements must be satisfied.

Student Service-Learning: The student shall complete a locally developed, state-approved program that includes service-learning infusion in designated courses, preparation, reflection, and a specified number of hours of independent service.

High School

Graduation Requirements *Class of 2018 through 2020*

Effective with the Graduating Classes of 2018 through 2020 (entering freshman of Fall 2014 through Fall 2016), graduation requirements to earn a Maryland High School diploma are as follows. Note updates effective with the class of 2019 (entering freshmen of Fall 2015). See the Required Subject Area Descriptions pages for further descriptions.

SUBJECT AREA	SPECIFIC CREDIT REQUIREMENTS	ASSESSMENT REQUIREMENTS
English	4 credits	Students must satisfy one of the following: a. Meet the requirements as established by MSDE on the Maryland assessments for Algebra 1, Biology, English 10, and Government. b. Achieve a combined score(s) as established by MSDE on the Maryland assessments; c. Achieve a score as established by MSDE approved substitute assessments for Algebra, Biology, English, and Government, aligned with the Maryland assessments such as Advanced Placement examinations, SAT I, SAT II, ACT, and International Baccalaureate examinations. According to MSDE's Division of Assessment, Accountability and Performance Reporting Updates in September 2022, students were waived from the accountability assessment requirement for the 2019-2020 school year due to the global pandemic. For school years 2020-2021, 2021-2022, and 2022-2023, students would be required to participate in, but not pass, the assessments Algebra 1, English 10, Life Science, and Government. Refer to the Assessment Requirements page and online to the Maryland Comprehensive Assessment Program website for updates regarding End of Course Exams.
Mathematics	3 credits ✓ 1 in Algebra 1 ✓ 1 in Geometry ✓ 1 additional mathematics credit ✓ Enrollment in a math course each year in high school	
Science	3 credits ✓ 1 in Biology ✓ 2 additional credits that must include laboratory experience in any or all of the following areas: earth science or physical science	
Social Studies	3 credits ✓ 1 in U.S. History II ✓ 1 in Local, State, and National Government ✓ 1 in World History	

OTHER REQUIREMENTS

Fine Arts	1 credit
Physical Education	0.5 credit ✓ Personal Fitness
Health Education	0.5 credit ✓ Health Issues
Technology Education	1 credit
Completer** and Electives **Completer refers to a specified sequence of courses required for completing graduation requirements	2 credits of either World Language or American Sign Language (both credits must be in the same language per local requirements) and any remaining credits in electives Effective with the class of 2019 (entering freshmen of Fall 2015), PGCPSS no longer requires two years of the same world language for students beginning a Level 1 course in high school. MSDE requires that American Sign Language be taken in sequential order to meet graduation requirements. OR 2 credit s of Advanced Technology Education and any remaining credits in electives OR Complete (4–9 credits) a Maryland State Department of Education (MSDE)-approved sequence of courses and any remaining credits in electives

Prerequisites: Enrollment in a course may be allowed only if a previous course has been completed. See the High School Courses and Programs of Study publication which describes the content of each course offered in Prince George's County Public Schools and course prerequisites.

Credits: Twenty-one (21) credits are required. Per COMAR 13A.03.02.01C, Effective with the Class of 2019 (entering freshmen of Fall 2015), students must be enrolled and have taken a minimum of four full credit courses or a combination of full and partial credit courses to total a minimum of four credits over the course of the academic year. The minimum of four credits worth of courses must include at least one high school course; remaining courses may include Dual Enrollment. All MSDE graduation requirements must be satisfied. Seniors who have completed four years of high school are exempt from the minimum enrollment requirement. All MSDE graduation requirements must be satisfied.

Enrollment: The student shall satisfactorily complete four years of approved study beyond the 8th grade unless on an approved option.

Student Service-Learning: The student shall complete a locally-developed, state-approved program that includes service-learning infusion in designated courses, preparation, reflection, and a specified number of hours of independent service.

High School Graduation Requirements for Students with Disabilities

- All students with disabilities must meet minimum credit requirements before graduating and receiving a high school diploma.
- All students with disabilities must meet current testing requirements in order to earn a high school diploma.
- All students with disabilities must meet the Student Service-Learning requirement in order to earn a high school diploma. Refer to Administrative Procedure 6151 Student Service-Learning Graduation Guidelines for additional information.

A Maryland High School Certificate of Program Completion can be awarded to students with disabilities who cannot meet the requirements for a diploma, but who meet one of the following standards:

1. The student is enrolled in an education program for at least 4 years beyond Grade 8 or its age equivalent, and is determined by his/her IEP team, with the agreement of the student and the parents of the student, to have developed appropriate skills for the individual to enter the world of work, act responsibly as a citizen, and enjoy a fulfilling life, with the world of work including but not limited to gainful employment, post-secondary education and training, supported employment, and other services that are integrated in the community, or
2. The student has been enrolled in an education program for 4 years beyond Grade 8 or its age equivalent and will have reached age 21 by the end of the student's current school year.

The Maryland Summary of Performance that describes the student's skills shall accompany the Maryland High School Certificate of Program Completion.

The final decision to award a student with a disability a Maryland High School Certificate of Program Completion will not be made until after the beginning of the student's last year in high school.

A student with significant cognitive disability may not meet high school graduation requirements, if a student participates in an Alternative Assessment based on Alternative Academic Achievement Standards (AA-AAAS) and continues to receive instruction based on Alternative Academic Achievement Standards through high school.

English Program

Four (4) English credits are required for graduation. All English for Speakers of Other Languages (ESOL) courses (Newcomer, Beginner, Intermediate, and Advanced) count as English credits toward graduation.

No English courses, with the exception of high school English credits earned in middle school, English 9 or the appropriate English ESOL (Newcomer, Beginner, Intermediate, Advanced) earned prior to fall enrollment in Grade 10, shall be counted toward fulfilling the graduation requirements in English.

A 10th grade or a second-year high school student who has earned one credit in English must enroll in English 10 or the appropriate English ESOL for one credit. All students must take and pass the English assessment or an allowable substitute upon completion of the course in order to graduate.

An 11th grade or third-year high school student who has earned two credits in English must be enrolled in English 11, Honors English 11, IB English, AP English Language and Composition, AP English Literature and Composition, or the appropriate English ESOL (Intermediate or Advanced) for one credit.

A 12th grade or fourth-year high school student who has earned three credits in English must be enrolled in English 12, English 12 Dual Enrollment, AP English Literature and Composition, AP English Language and Composition, or the appropriate English ESOL (Advanced) for one credit. English 10 is a requirement for graduation and can be scheduled concurrently with ESOL Advanced as needed.

English courses are sequential by grade level and an earned credit at the previous grade level is a prerequisite for the next course and for the Prince George's County Public Schools Dual Enrollment process. Students may not concurrently enroll in English courses that are required for graduation except in special circumstances submitted by the Principal for approval by the Director of Curriculum and Instruction. Courses taken at a college or university for dual enrollment will follow the college's prerequisite guidelines.

Possible considerations for exceptions to the enrollment policies may include:

1. when the exception will allow the student to graduate with his/her class;
2. when a transfer into our system from another system requires the accumulation of multiple credits to meet graduation credits;
3. when overriding circumstances prevent a student from attending a summer or evening program; or
4. when the both principal and the Director of Curriculum and Instruction deem that it is clearly in the best interest of the student.

English electives will carry elective credit and cannot satisfy the English requirement for graduation.

Students in pursuit of an International Baccalaureate (IB) diploma must take the prescribed IB course of studies, as well as the prerequisite course of studies: Honors or Pre-Diploma English 9 and Honors or Pre-Diploma English 10. The required IB course of study to be completed in the 11th and 12th grades includes IB World Literature 1 and 2 or IB Language and Literature 1 and 2.

A junior or a senior student may not exceed three courses in any semester in any one of the following subject areas: English, Social Studies, Science, World Language, Health Education, and Physical Education.

To view the assessment requirements for English, go to Table of Contents at the beginning of this document to find the Assessment Requirements for High School and the corresponding page numbers.

English Core Courses

Grades 9–12

English 9

This course is designed to move students towards mastery of the grade level English Language Arts Maryland College and Career Readiness Standards. Students will read complex texts primarily focused on a survey of literature from a variety of eras and cultures that is fictional and informational. Students will read closely to analyze texts to prepare for writing tasks that include argument, narrative, and informative/explanatory essays. Students will also develop skills in language and speaking and listening.

English 10

This course is designed to move students towards mastery of the grade level English Language Arts Maryland College and Career Readiness Standards. Students will read complex texts that are fictional and informational. Text selections include seminal speeches from the Americas and fiction from around the world. Students will read closely to analyze texts to prepare for writing tasks that include argument, narrative, and informative/explanatory essays. Students will also develop skills in language and speaking and listening.

English 11

This course is designed to move students towards mastery of the grade level English Language Arts Maryland College and Career Readiness Standards. Students will read complex texts that are fictional and informational. Text selections are focused on the study of American Literature. Students will read closely to analyze texts to prepare for writing tasks that include argument, narrative, and informative/explanatory essays. Students will also develop skills in language and speaking and listening.

English 12

This course is designed to move students towards mastery of the grade level English Language Arts Maryland College and Career Readiness Standards. Students will read complex texts that are fictional and informational. Text selections range from literature from the Americas, Great Britain, and seminal speeches. There is also an emphasis on writing to sources and conducting research. Students will read closely to analyze texts to prepare for writing tasks that include argument, narrative, and informative/explanatory essays. Students will also develop skills in language and speaking and listening.

For more information, contact the Reading/English Language Arts Office at 301-808-8284.

English for Speakers of Other Languages (ESOL) Course Sequence as of 2020-2021 and Beyond

HIGH SCHOOL

		Grade 9	Grade 10	Grade 11	Grade 12
ESOL NEWCOMER	English	ESOL Newcomer and ESOL Newcomer Accelerated Learning (AL)	ESOL Beginner and ESOL Beginner AL	<i>ESOL Intermediate/ESOL Intermediate AL and MCAP</i>	<i>ESOL Advanced/ESOL Advanced AL/English 10 and MCAP</i>
	Social Studies	Language of History	U.S. History II	<i>Local, State, and National Government</i>	World History
	Science	Language of Science	Biogeochemical Systems	<i>Biology</i>	Either Physical Science or Earth and Space Science course to fulfill the graduation requirement
	Math	For students new to the U.S., use the International Student Math Placement Test to determine initial course placement. Courses may include Applications in Algebra for ELLs*, <i>Algebra 1 ESOL</i> , Geometry or higher. Mathematics is to be scheduled every year.			
ESOL BEGINNER	English	ESOL Beginner and ESOL Beginner AL	<i>ESOL Intermediate/ESOL Intermediate AL and MCAP</i>	<i>ESOL Advanced/ESOL Advanced AL and MCAP</i>	<i>English 10/ESOL Language Lab 1 and MCAP</i>
	Social Studies	U.S. History II	<i>Local, State, and National Government</i>	World History	-
	Science	Biogeochemical Systems	<i>Biology</i>	Either Physical Science or Earth and Space Science course to fulfill the graduation requirement	-
	Math	For students new to the U.S., use the International Student Math Placement Test to determine initial course placement. Courses may include Applications in Algebra for ELLs*, <i>Algebra 1 ESOL</i> , Geometry or higher. Mathematics is to be scheduled every year.			
ESOL INTERMEDIATE	English	ESOL Intermediate/ESOL Intermediate AL	<i>ESOL Advanced/ESOL Advanced AL and MCAP</i>	<i>English 10/ESOL Language Lab 1 and MCAP</i>	English 12/ESOL Language Lab 2
	Social Studies	U.S. History II	<i>Local, State, and National Government</i>	World History	-
	Science	Biogeochemical Systems	<i>Biology</i>	Either Physical Science or Earth and Space Science course to fulfill the graduation requirement	-
	Math	For students new to the U.S., use the International Student Math Placement Test to determine initial course placement. Courses may include Applications in Algebra for ELs, <i>Algebra 1 ESOL</i> , Geometry or higher. Mathematics is to be scheduled every year.			
ESOL ADVANCED	English	ESOL Advanced/ESOL Advanced AL	<i>English 10/ESOL Language Lab 1 and MCAP</i>	English 11/ESOL Language Lab 2	English 12
	Social Studies	U.S. History II	<i>Local, State, and National Government</i>	World History	-
	Science	Biogeochemical Systems	<i>Biology</i>	Either Physical Science or Earth and Space Science course to fulfill the graduation requirement	-
	Math	For students new to the U.S., use the International Student Math Placement Test to determine initial course placement. Courses may include Applications in Algebra for ELs, <i>Algebra 1 ESOL</i> , Geometry or higher. Mathematics is to be scheduled every year.			

Students enrolled in BOLD ITALICIZED courses will take the Maryland Comprehensive Assessment Program (MCAP) and/or Maryland Integrated Science Assessment (MISA) assessment associated with that content area course.

* Only students new to the country should be scheduled into Applications in Algebra for ELLs (AiA); all others should be scheduled into Algebra 1 or higher for Mathematics.

English for Speakers of Other Languages

English Program for English for Speakers of Other Languages (ESOL)

English learners currently enrolled in the ESOL Program and electing to receive ESOL services will be enrolled in the appropriate English ESOL course and complementing Accelerated Learning course to meet the required English credit. Course placement is determined using the previous course placement, the English language proficiency of the student as determined by the WIDA ACCESS or W-APT, and/or ESOL/International Student Admissions and Enrollment Office (ISAEO) staff recommendations.

English ESOL Newcomer

The English ESOL Newcomer course focuses on both English and language acquisition to develop the English language skills of newcomer English learners in listening, speaking, reading, and writing. These skills require control of the sound system, grammar, vocabulary, and basic sentence structure. Students will build Basic Interpersonal Communication Skills (BICS) while learning how to read, write, and think critically for use in appropriate social, cultural, and academic situations. Students must be concurrently enrolled in English ESOL Newcomer Accelerated Learning course.

English ESOL Newcomer Accelerated Learning (AL)

The English ESOL Newcomer Accelerated Learning course complements the English ESOL Newcomer course and provides newcomer English learners with additional instructional support in the areas of listening, speaking, reading, and writing. Students must be concurrently enrolled in both courses.

English ESOL Beginner

The English ESOL Beginner course continues to focus on both English and language acquisition to develop English language skills for beginner English learners in listening, speaking, reading, and writing. These skills require control of the sound system, grammar, vocabulary (social and academic), and incrementally more complex sentence structure. Student will continue to build Basic Interpersonal Communication Skills (BICS) and will begin to develop Cognitive Academic Language Proficiency (CALP) while extending reading, writing, and critical thinking skills in appropriate and increasingly more complex social, cultural, and academic situations. Students must be concurrently enrolled in English ESOL Beginner Accelerated Learning course.

English ESOL Beginner Accelerated Learning (AL)

The English ESOL Beginner Accelerated Learning course complements the English ESOL Beginner course and provides beginner English learners with additional instruction support in the areas of listening, speaking reading, and writing. Students must be concurrently enrolled in both courses.

English ESOL Intermediate

The English ESOL Intermediate course continues to focus on both English and language acquisition to develop English language skills for intermediate English learners in listening, speaking, reading, and writing. These skills require control of the sound system, grammar, vocabulary (social, academic, and technical), and increasingly more complex sentence structure. Students will continue to develop Cognitive Academic Language Proficiency (CALP) while extending reading, writing, and critical thinking skills in appropriate and complex social, cultural, and academic situations. Students must be concurrently enrolled in English ESOL Intermediate Accelerated Learning course.

English ESOL Intermediate Accelerated Learning (AL)

The English ESOL Intermediate Accelerated Learning course complements the English ESOL Intermediate course and provides intermediate English learners with additional instruction support in the areas of listening, speaking reading, and writing. Students must be concurrently enrolled in both courses.

English ESOL Advanced

The English ESOL Advanced course continues to focus on both English and language acquisition to develop English language skills for advanced English learners. Students will develop Cognitive Academic Language Proficiency (CALP) while moving toward mastery of the grade level English Language Arts Maryland College and Career Readiness Standards. Students will read complex texts that are fictional and informational. Students will read closely to analyze texts to prepare for writing tasks that include Literary Analysis, Narrative Analysis, and Research Simulation. Students will also develop skills in language and speaking and listening. Students must be concurrently enrolled in English ESOL Advanced Accelerated Learning.

English for Speakers of Other Languages

English ESOL Advanced Accelerated Learning (AL)

The English ESOL Advanced Accelerated Learning course complements the English ESOL Advanced course and provides advanced English learners with additional instruction support in the areas of listening, speaking reading, and writing. Students must be concurrently enrolled in both courses.

English ESOL Language Lab 1

This English language development course continues to develop Cognitive Academic Language Proficiency (CALP) and increased control of English language skills for long term English learners. Students will increase academic vocabulary and develop strategies and skills for listening, speaking, reading, and writing for academic purposes.

English ESOL Language Lab 2

This English language development course continues to develop Cognitive Academic Language Proficiency (CALP) and increased control of English language skills for long term English learners. Students will increase academic vocabulary and develop strategies and skills for listening, speaking, reading, and writing for academic purposes.

For more information, contact the ESOL Office at 301-445-8450 or the International Student Admissions and Enrollment Office (ISAEO) at 301-445-8460.

International High School

Students enrolled in the International High Schools will be required to follow the scoring and grading procedures available from the school office.

Mathematics Program

Effective with entering freshmen of Fall 2021, four (4) mathematics credits are required for graduation, which must include Algebra 1, Geometry, and two (2) additional mathematics credit(s). Each student shall enroll in a mathematics course each year of high school that the student attends, up to a maximum of 4 years attendance, unless in the 5th and 6th year a mathematics course is needed to meet a graduation requirement.

Effective with entering freshmen of Fall 2014 through Fall 2020, three (3) mathematics credits are required (including Algebra 1 and Geometry) and enrollment in one credit of mathematics.

Upon completion of Algebra 1, students must take the appropriate Algebra 1 assessment(s) or an allowable substitute to graduate. To view the assessment requirements for, Mathematics go to Table of Contents at the beginning of this document to find the Assessment Requirements for High School and the corresponding page numbers.

Students may not enroll in the next course of study if they have not successfully completed all prerequisite courses. Students may not concurrently enroll in Algebra 1 and Geometry unless they are enrolled in a credit recovery opportunity for Algebra 1.

Advanced Placement Precalculus, Advanced Placement Statistics and Advanced Placement Computer Science can be taken upon completion of Algebra 2 or above.

Mathematics Core Courses Grades 9–12

Algebra 1

Algebra 1 formalizes and extends the mathematics students learned in the middle grades. Six critical areas comprise Algebra 1: Relationships Between Quantities and Reasoning with Equations, Linear Functions, Exponential Functions, Quadratic Functions, Descriptive Statistics, and a survey of other Nonlinear Functions. The critical areas deepen and extend understanding of linear and exponential relationships by contrasting them with each other and by applying linear models to data that exhibit a linear trend, and students engage in methods for analyzing, solving, and using quadratic functions. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.

Geometry

Geometry formalizes and extends students' geometric experiences from the middle grades. Students explore more complex geometric situations and deepen their explanations of geometric relationships, moving towards formal mathematical arguments. Six critical areas comprise the Geometry course: Congruence, Proof and Constructions, Connecting Algebra and Geometry through Coordinates, Similarity, Proof and Trigonometry, Extending to Three Dimensions, and Circles With and Without Coordinates. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. Students must successfully complete Algebra 1 before they can enroll in Geometry.

Quantitative Modeling

Quantitative Modeling algebra is a college and career preparatory course that integrates algebra, geometry, probability, and statistics to solve financial problems that occur in everyday life. An emphasis is placed on the integration of concepts from Algebra 1 and Geometry as well as introductory concepts from Algebra 2. Real-world problems in investing, banking, consumer credit, employment, income tax, automobile ownership, and independent living are solved through applying the relevant mathematics. This course will prepare students for Algebra 2 as well as either the Accuplacer, SAT or ACT assessments. Each student enrolled in Quantitative Modeling will participate in a culminating hands-on budgeting simulation that is implemented at a JA Finance Park facility in Prince George's County. Students must successfully complete Algebra 1 and Geometry before they can enroll in Quantitative Modeling.

Mathematics Program

Algebra 2

Algebra 2 continues to work with linear, quadratic, and exponential functions. Students extend their repertoire of functions to include polynomial, rational, radical, and trigonometric functions. In this course rational functions are limited to those whose numerators are of degree at most one and denominators of degree at most 2; radical functions are limited to square roots or cube roots of at most quadratic polynomials. Students work closely with the expressions that define the functions, and continue to expand and hone their abilities to model situations and to solve equations, including solving quadratic equations over the set of complex numbers and solving exponential equations using the properties of logarithms. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. Students must successfully complete Geometry before they can enroll in Algebra 2.

For more information, contact the Mathematics Office at 301-749-5610.

Science Program

Three (3) Science credits are required for graduation. Instruction includes a laboratory component engaging students in the application of the science and engineering practices, the crosscutting concepts, and disciplinary core ideas including three lab science credits aligned to the Life Science Maryland Integrated Science Assessment (MISA):

3 lab science credits (one from each category effective for entering freshmen of Fall 2017)

√ 1 in Life Science

- Biology
- Advanced Placement (AP) Biology
- International Baccalaureate (IB) Biology 1 or 2

√ 1 in Physical Science

- Biogeochemical Systems
- Chemistry
- Honors/Pre-Diploma Program (PDP)/Science and Technology (S/T) Chemistry
- Physics, Environmental Science
- IB Biology 1
- IB Chemistry 1
- IB Environmental Systems
- IB Sports Exercise and Health Science
- AP Chemistry
- AP Physics 1 or 2
- AP Environmental Science

√ 1 in Earth and Space Science

- Biogeochemical Systems
- * Chemistry
- Honors/PDP/ST Chemistry
- Environmental Science
- Earth and Space Science
- IB Environmental Systems
- AP Environmental Science

* Note: Chemistry is approved for students entering ninth grade in or before Fall 2021.

For students to meet the high school graduation requirement in science, the Life Science MISA must be completed when enrolled in 8th Grade Biology, High School Biology, Biology PDP, Biology ST, Biology Summit, AP Biology, or IB Biology. To view the current assessment requirements for Science, go to Table of Contents at the beginning of this document to find the Assessment Requirements for High School and the corresponding page numbers.

Any student who fails Biology will repeat the course during credit recovery, summer school or an evening program.

Students may not take Algebra 1 and Chemistry concurrently. Chemistry may be taken after successful completion of Algebra 1.

A student who has not successfully completed Algebra 1 may enroll in Environmental Science in lieu of Chemistry.

A junior or senior student may not exceed three courses in any semester in any one of the following subject areas: English, Social Studies, Science, World Languages, Health Education, and Physical Education.

Science Program

Science Core Courses

Grades 9–12

Biogeochemical Systems

This course is designed to illustrate the role of chemical processes, inclusive of photosynthesis and cellular respiration, in the cycling of carbon among Earth's spheres. Students will explore the study of matter and its interactions, motion, stability, and force through laboratory investigations, scientific discussions, and phenomena based instruction. Students will apply the science and engineering practices and crosscutting concepts of the Next Generation Science Standards (NGSS) to explain systems interactions: the flow of energy among organisms in an ecosystem, the control of weather and climate with a major emphasis on the mechanisms and implications of climate change, and the importance of biological and geophysical phenomena that support student explanations of chemical processes such as the release of energy. This course will involve students developing solutions to authentic problem-based science issues and investigations, while exploring career opportunities in Science, Technology, Engineering, and Mathematics (STEM).

Biology

This required course is designed to emphasize the study of the interrelationships of living organisms with respect to their environment. Students will engage in laboratory investigations, scientific discussions, and phenomena based instruction in order to apply science and engineering practices and crosscutting concepts of the Next Generation Science Standards (NGSS) to explain cell structures and processes, ecosystem interactions, inheritance of traits, and evolution. Students will use observations, experiments, models, theories, and technology to make sense of the natural world. Emphasis is placed on important biological and geophysical phenomena that support the understanding of the cycling of matter and flow of energy in living organisms, gene expression, and biodiversity. This course will also involve students developing solutions to authentic problem-based life science issues and investigations, while exploring career opportunities in Science, Technology, Engineering, and Mathematics (STEM). Content from this course will be assessed on the Life Science MISA.

Chemistry

This course is designed to explore the study of matter and its interactions through laboratory investigations, scientific discussions, and phenomena-based instruction. Students will apply science and engineering practices and crosscutting concepts of the Next Generation Science Standards (NGSS) to explain the structure, function and interactions of matter, at the macroscopic and the molecular-atomic levels. Students are expected to develop an understanding of chemical reactions, including rates of reactions and energy changes in terms of collisions of molecules, and the rearrangements of atoms as they make sense of their physical world through real-world connections. Emphasis is placed on important biological and geophysical phenomena that support student explanations of the formation and abundance of elements, chemical bonding, radioactivity, and the release of energy. Students will apply an understanding of the process of optimization in engineering design to chemical reaction systems. This course will also involve students developing solutions to authentic problem-based physical science issues and investigations, while exploring career opportunities in Science, Technology, Engineering, and Mathematics (STEM).

Earth and Space Science

This course is designed to allow students to explore the Earth and beyond while learning skills that will enable them to apply science and engineering practices and crosscutting concepts of the Next Generation Science Standards (NGSS) to real world Earth and Space Science situations. Earth and Space Science integrates key areas of science disciplinary core ideas including biology, chemistry, physics, geology and astronomy. This approach to learning affords students opportunities to distinguish among the four spheres that are essential to the study of the Earth (hydrosphere, geosphere, atmosphere, and biosphere), to recognize the delicate balance among these spheres, and to analyze the dramatic results when that balance is disrupted. This course will involve students developing solutions to authentic problem-based earth and space sciences' issues and investigations, while also exploring career opportunities in Science, Technology, Engineering, and Mathematics (STEM).

Science Program

Environmental Science

This course is designed as a comprehensive, contemporary environmental science course with emphasis on fieldwork and data collection and analysis. Students will apply science and engineering practices and crosscutting concepts of the Next Generation Science Standards (NGSS) to local and global to real-world environmental science issues. Students will also investigate the natural environment and the interrelationships among natural systems including biodiversity and population dynamics. This course will involve students developing solutions to authentic problem-based environmental issues and investigations, while also exploring career opportunities in Science, Technology, Engineering, and Mathematics (STEM).

Physics

This course is designed to explore the study of motion, stability, forces and interactions through laboratory investigations, scientific discussions, and phenomena based instruction. Students will apply science and engineering practices and crosscutting concepts of the Next Generation Science Standards (NGSS) to explain the laws of nature (physics). Students are expected to develop an understanding of momentum conservation, and describe and predict the gravitational and electrostatic forces between objects, as they make sense of their physical world. Students will also explore waves and their applications in technologies for information transfer, inclusive of wave properties and electromagnetic radiation. Additionally, students are expected to demonstrate their understanding of engineering ideas by explaining how technological devices use the principles of physics with matter to transmit and capture information and energy. This course will involve students developing solutions to authentic problem-based physical science issues and investigations, while exploring career opportunities in Science, Technology, Engineering, and Mathematics (STEM).

For more information, contact the Science Office at 301-808-8254.

Social Studies Program

Three (3) core Social Studies credits are required for graduation.

The 9th grade Social Studies requirement is United States History Part II: Reconstruction to Present.

The 10th grade Social Studies requirement is Local, State, and National Government. Students may take Advanced Placement (AP) Government and Politics in lieu of the Local, State, and National Government course.

The 11th grade Social Studies requirement is World History. AP World History may be substituted.

Social Studies electives and other AP courses may be offered to 11th grade and 12th grade students. Availability of such courses will depend on adequate student enrollment and teacher availability. Social Studies electives are not available in all schools.

A junior or senior student may not exceed three courses in any semester in any one of the following subject areas: English, Social Studies, Science, World Languages, Health Education, and Physical Education.

To view the assessment requirements for Social Studies, go to Table of Contents at the beginning of this document to find the Assessment Requirements for High School and the corresponding page numbers.

For more information, contact the Social Studies Office at 301-808-8246.

Social Studies Core Courses Grades 9–12

United States History II, Reconstruction to Present

This required course examines how the American political, economic, and social systems developed. 20th to 21st century content includes issues related to the development of World policy, the role of the United States as a world leader, and the domestic response to a diversified population, and issues such as reform and civil rights.

Local, State, and National Government

This required course provides students with a comprehensive examination of the basic concepts and principles of our federal system of government. Course study includes a focus on the foundations of government; an overview of the United States political system; study of the legislative, executive, and judicial branches of government; explanation of citizenship rights and responsibilities; examination of structure and functions of state and local governments; and study of global perspective on governmental relationships. Students must take and pass the Maryland Comprehensive Assessment Program (MCAP) in Government at the end of this course (or an allowable substitute).

World History

This required course focuses on modern world history beginning in approximately 1400 A.D. The course is based on four major themes: human interactions; hemispheric interactions; crisis, progress, and change in the 20th century; and the challenges of the 21st century.

For more information, contact the Social Studies Office at 301-808-8246.

Health Education Program

Effective with entering freshmen of Fall 2020 and before, one-half (0.5) credit in Health Education is required for graduation. All students are required to complete the Health Issues or Health 1 course to satisfy the half credit graduation requirement. The recommendation is for students to enroll in the one-half (0.5) credit Health Issues or Health 1 course in ninth or tenth grade.

Effective with entering freshmen of Fall 2021, students are required to complete one (1.0) credit in Health Education in order to graduate by completing the 0.5 credit Health Issues course, which has transitioned to the title of Health 1, in 9th or 10th grade AND the other 0.5 credit graduation required course, Health 2, in 11th or 12th grade.

Students will not be exempt or waived from Health Education for any reason.

PROGRAM/COURSE

CREDITS

Health Education Electives

Family Living (only juniors and seniors; must have passed Health Issues or Health 1 requirement) 0.5 credit

Sports Medicine (only juniors and seniors; must have passed Health Issues or Health 1 requirement)... 0.5 credit

For more information, contact the Health Education Office at 301-808-4080.

Physical Education Program

One-half (0.5) credit in physical education is required for graduation. All students are required to complete the Personal Fitness 1 course to satisfy the half credit graduation requirement. Students cannot earn credit for this class by examination. Personal Fitness 1 is a prerequisite for taking any other Physical Education electives. With the principal's permission, enrollment may be delayed until Grades 10, 11, or 12. Health Education courses may not be substituted for physical education courses. Dance courses do not count as physical education courses. However, dance courses do count toward the completion of the fine arts credit requirement.

Students may not be exempt or waived from physical education for any reason. Accommodations will be made as necessary to meet IEP goals. Special circumstances will be accommodated on a case-by-case basis by the principal in consultation with the Physical Education Supervisor.

PROGRAM/COURSE

CREDITS

Physical Education Electives

Personal Fitness 2..... 0.5 credit

Lifetime Sports 1 0.5 credit

Lifetime Sports 2 0.5 credit

Team Sports 1 0.5 credit

Team Sports 2 0.5 credit

Physical Training 0.5 credit

For more information, contact the Physical Education Office at 301-333-0970.

Financial Literacy

Effective with entering freshmen of Fall 2020, one-half (0.5) credit in Financial Literacy is required for graduation. All students are required to complete the Financial Literacy course to satisfy the half credit graduation requirement. The recommendation is for students to enroll in the one-half (0.5) credit Financial Literacy course in tenth grade. No 9th graders should be scheduled in Financial Literacy.

This competency-based semester course is designed to successfully prepare students to manage their lives on their own with particular emphasis on personal finance. A multi-materials approach to learning is used in fostering the development of practical skills. Units of study include decision making, goal setting, employability skills, job search and interviews, budgeting, banking, credit, payroll and tax forms, housing and transportation choices.

For more information, contact the Department of Career and Technical Education (CTE) at 301-669-6012.

Fine Arts Graduation Credit

One (1) Fine Arts credit is required for graduation. Course availability is designated by each high school. The courses below meet the Fine Arts credit criteria.

PROGRAM/COURSE CREDITS

Art

Advanced Computer Graphics Visual and Performing Arts (VPA)	2 credits
Advanced Drawing and Painting	1 credit
Advanced Photography	2 credits
Advanced Placement Art History	1 credit
Advanced Placement Studio Art 2D	1 credit
Advanced Placement Studio Art 3D	1 credit

Computer Science, Engineering, or Technology Education Graduation Credit

HIGH SCHOOL

One (1) Computer Science, Engineering, or Technology Education credit is required for graduation. Course availability is designated by each high school. The courses below meet the Computer Science, Engineering, or Technology Education credit criteria. Computer Science, Engineering or Technology Education is formerly known as Technology Education.

PROGRAM/COURSE	CREDITS
812113 Advanced Design Applications	1 credit
867363 Advanced Placement Computer Science Principles	1 credit
812123 Advanced Technological Applications.....	1 credit
991410 Flight Planning*	0.5 credit
991400 The Flying Environment*	0.5 credit
867303 Foundations of Computer Science	1 credit
842003 Foundations of Technology	1 credit
842093 Foundations of Technology Science and Technology**	1 credit
867913 Fundamentals of Aerospace*	1 credit
864333 Introduction to Information Technology Dual Enrollment.....	1 credit
803013 International Baccalaureate Diploma Program Design Technology	1 credit
867403 Principles of Engineering***	1 credit
991420 Unmanned Aircraft Operations*	0.5 credit

Students are to be enrolled in the programs listed below to earn the 1.0 Computer Science, Engineering, or Technology Education credit:

*Aerospace Engineering and Aviation Technology

**Science and Technology

***Project Lead the Way Engineering

For more information, contact the Department of Career and Technical Education (CTE) at 301-669-6012.

Advanced Technology Education Graduation Completer Credit

The completion of two (2) Advanced Technology Education credits is one option for the completer requirement for graduation, through school year 2023-2024. Course availability is designated by each high school. The courses below meet the Advanced Technology Education credit criteria through school year 2023-2024.

Students entering high school in Fall 2021 or after are not eligible for Advanced Technology Education as a completer option.

Students who entered high school in Fall 2020 or before who are currently enrolled in advanced technology education courses can continue to use this option to graduate through school year 2023-2024. Students enrolling in Fall 2020 would be the last cohort of students who are eligible to graduate as an advanced technology education completer.

PROGRAM/COURSE	CREDITS
812003 Engineering Design by ITEEA*	1 credit
812113 Advanced Design Applications*	1 credit
812123 Advanced Technological Applications	1 credit
991103 Aeronautics Engineering Applications	1 credit
991113 Astronautics Engineering Applications	1 credit
867213 Information Technology Networks and Systems 1	1 credit
867223 Information Technology Networks and Systems 2	1 credit
811200 Architectural Graphics S/T	0.5 credit

836200 Electronic Systems A S/T	0.5 credit
836300 Electronic Systems B S/T	0.5 credit
836103 Electronic Systems S/T	1 credit
870200 Energy Systems A S/T	0.5 credit
870300 Energy Systems B S/T	0.5 credit
870103 Energy Systems S/T	1 credit
811400 Engineering Graphics S/T	0.5 credit
811303 Engineering Drafting and Design S/T	1 credit
870500 Production Systems A S/T	0.5 credit
870600 Production Systems B S/T	0.5 credit
870403 Production Systems S/T	1 credit
869800 Structural Systems A S/T	0.5 credit
869900 Structural Systems B S/T	0.5 credit
870703 Structural Systems S/T	1 credit

*Students who take and pass Foundations of Technology and at least two Advanced Technology Education courses (Advanced Design Applications and Engineering Design--ITEEA--only) may earn articulated college credits through the University of Maryland Eastern Shore. Additional criteria may apply.

For more information regarding Advanced Technology Education, contact the Department of Career and Technical Education (CTE) at 301-669-6012.

World Languages Graduation Completer Credit

The completion of two (2) credits in World Languages is one option for the completer requirement for graduation. For advanced coursework in high school, World Languages enrollment is required in middle school. See High School Graduation Credit for Middle School Coursework. Course availability is designated by each high school. A junior or senior student may not exceed three courses in any semester in World Languages.

Effective with entering freshmen of Fall 2015 through Fall 2020, PGCPS did not require that the two years of world language for students beginning a Level 1 course in high school be the same world language. Effective with students entering high school in Fall 2021, two credits in the same World Language or American Sign Language are required for completer credit.

Students will complete two years in the same world language to meet the following needs:

- Better mastery of the language;
- Support for reaching an Advanced Placement language course;
- Support to meet college entrance requirements and for the continuation of a language at the college level; and
- Support for the Maryland Seal of Biliteracy.

Please note that students taking a World Language in Middle School MUST take the next sequential course in the same language in order to receive high school credit. If a student takes a Level 1 language in middle school and then takes the Level 2 in high school, the Level 2 must be a continuation of the Level 1 course or the student may do Level 1 and Level 2 of the same language in middle school to receive high school credit.

MARYLAND SEAL OF BILITERACY COMAR 13A.03.07

The purpose of the State Seal of Biliteracy is to:

- Recognize the value of language learning in public schools.
- Encourage students to attain high proficiency levels in one or more languages in addition to English.
- Affirm native or heritage languages.
- Provide employers with a method of identifying individuals with language and biliteracy skills.
- Provide universities with an additional method to recognize applicants seeking admission/placement.
- Prepare students with the critical skills necessary to function in a global society.
- Strengthen cross-cultural communication, affirm the value of diversity, and honor the multiple cultures and languages of our communities.

A student can receive the Maryland Seal of Biliteracy if by senior year he/she passed English PARCC and one of the assessments aligned to ACTFL (The American Council on the Teaching of Foreign Languages) proficiency guidelines with a minimum qualifying score. See the Maryland Seal of Biliteracy web page for additional information: <https://www.marylandpublicschools.org/about/Pages/DCAA/World-Languages/Biliteracy/index.aspx>.

Career and Technical Education (CTE)

MSDE-Approved Graduation Completer Credit Sequences

The completion of an MSDE-approved Career and Technical Education sequence of courses is one option for the completer requirement for graduation. CTE completer sequences are college and career preparation that includes certification, licensure, apprenticeship, college credit and/or work experience. Students must pass each course in the selected sequence to fulfill the completer requirement. Availability is designated by each high school. See your Professional School Counselor for application and transportation information. *Contact the Department of Career and Technical Education, 301-669-6012, for additional information.

Manufacturing, Engineering, and Technology

Project Lead the Way (PLTW) Engineering

To prepare students for the ever-changing 21st century and increasingly complex world, students must be prepared to bring knowledge and skills to solve problems, make sense of information, and know how to gather and evaluate evidence to make decisions. Students enrolling in Project Lead the Way (PLTW) Engineering will learn the kinds of skills that will enable them to understand and solve the complex challenges of tomorrow, and to meet the demands of the dynamic and evolving workforce. Students will not only learn technical skills, but also to solve problems, think critically and creatively, communicate, and collaborate.

Project Lead the Way (PLTW) Engineering - 4 Credits

MSDE-Approved Completer

Transcripted Credit - University of Maryland Baltimore County or

Rochester Institute of Technology

Articulated Credit - University of Maryland Eastern Shore

Grade 9 - 867503 Introduction to Engineering Design - 1.0 Credit

Grade 10 - 867403 Principles of Engineering - 1.0 credit*

Grade 11 - 867713 Civil Engineering and Architecture or 867933 Aerospace Engineering - 1.0 Credit

Grade 11 - 867613 Digital Electronics - 1.0 credit

Grade 12 - 867813 Engineering Design and Development - 1.0 Credit

Students in PLTW Engineering may earn the AP and PLTW recognition based on the PLTW program and study and AP courses taken, among other eligibility criteria.

High Schools: Charles Herbert Flowers, Crossland, DuVal, Northwestern, and Oxon Hill

*Students receive Computer Science, Engineering, and Technology (formerly known as Technology Education) credit but must take this course to complete the program of study.

Pathways in Technology Early College High School (P-TECH)

Hospitality Services Management • Health Information Management

Through the Pathways in Technology Early College High School, or P-TECH, PGCPs students can complete both a 4-year high school diploma and a 2-year Associate of Applied Science (AAS) Degree in six years or less at no cost. Students begin college level work by 9th grade for dual credit. P-TECH graduates complete all of the required course work to earn a high school diploma and an Associate of Applied Science (AAS) Degree. Students can take up to six years to complete the program, but may finish in as few as four years. In addition to the degrees, students earn industry certifications in their chosen field of study.

Hospitality Services Management - 4 Credits

Advanced Placement COURSE SEQUENCE

The College Board's Advanced Placement (AP) program's major focus is to facilitate the transition of high school students into successful college experiences. The 38 courses offered by The College Board are developed in conjunction with college and university faculty members. The AP program allows students to complete college-level studies while still in high school. All students enrolled in the program are encouraged to take the appropriate AP course exam and are awarded weighted grades for the additional work required by the courses. Each student must check with the desired college / university to determine the respective requirements to earn course credit for an AP course.

HIGH SCHOOL

The College Board has been working diligently to provide all students with the opportunity to take a rigorous high school curriculum by expanding access to AP, especially to underrepresented minorities. Through the use of the PSAT 8/9, PSAT/NMSQT and AP Potential, a web-based program, students will be identified who may not be enrolled in honors/challenging courses. School counselors can notify parents of the student's potential and encourage the students to enroll in courses that will be more academically challenging. PGCPSS has an open access policy for Advanced Placement courses.

Elective Program

Advanced Placement Guidelines

The following guidelines are provided for any student who plans to enroll in an AP course.

- All students are encouraged to take AP courses. The student's Preliminary SAT (PSAT) data, AP Potential, may be used to guide the student into AP courses.
- Completed AP courses will earn a weighted grade, per Administrative Procedure 5121.3.

Online Advanced Placement Courses

High-quality online courses approved by the Maryland State Department of Education (MSDE) for credit offer PGCPSS high school students the opportunity to benefit from the following Online AP options. Changes to the course list may occur based on MSDE's Approved Online Course document.

Online AP Art History

Online AP Biology

Online AP Calculus AB

Online AP US History

Aerospace Engineering and Aviation Technology

Elective Programs of Study

The Aerospace Engineering and Aviation Technology Program (AEAT) is a rigorous four-year high school course of study that provides broad and intensive college-level academic experiences with content and application focused on science, mathematics, pre-engineering and technology. AEAT, offered at DuVal High School, is a PGCPS specialty program and admits students in eighth (8th) and ninth (9th) for the upcoming year (entering 9th and 10th grades) after evaluation of their grade point average (GPA) and performance on the PSAT 8/9. Transportation is provided for all students.

Students are required to obtain a minimum of 13 credits in mathematics, engineering, research, and science courses and select a major by tenth grade to concentrate on those STEM courses as they progress through the program. Major components of the program include:

- external experiences (Internships, mentorships, and field trips);
- enrollment in Advanced Placement (AP) coursework with completion of exams strongly encouraged; and
- completion of the AEAT Practicum, which results in a five chapter paper.

As AEAT students complete STEM projects throughout their high school career, they will gain a skillset to help them write a five chapter research paper. Through the Aerospace Practicum course, students are guided through a master's level thesis that they present in a research symposium. A certificate of completion and documentation on a student's PGCPS high school transcript will be awarded to each student who completes the minimum 13 Science and Technology credits, meets the minimum requirements for high school graduation, and maintains a minimum cumulative GPA of 2.5.

All interested 8th grade PGCPS students will be considered for admission into AEAT program as long as they take the PSAT 8/9 at their school. PGCPS 9th grade students interested must apply to be considered for any openings in their current class. The PSAT 8/9 Test Administration will take place in December in the year preceding enrollment. Nonpublic school students in 8th and 9th grade interested in the AEAT Program must apply. Please visit www.pgcps.org/offices/testing-research-and-evaluation/testing/high-school-assessment and click on PSAT to obtain additional information.

The required course credits are distributed according to the STEM selected area of study.

	Aerospace Engineering	Aviation Technology	Exploratory
Science	4	4	4
Engineering Technology	3	2	2+
Math	4	4	4
Research	1	1	1

AEAT Program Planner

The program planner is the guide to ensure that students complete the required coursework for high school graduation and the AEAT Program. Please refer to the Program Handbook provided to the student/parent by the school coordinator. The Program Handbook will be the official guidance per the cohort school year. This handbook explains the program planner and ways to keep track of course completion. To ensure that AEAT students are following the correct schedule sequence, student schedules must be reviewed and approved by the Aerospace Engineering and Aviation Technology Coordinator. In addition, adjustments made to the major schedule sequence are made on a case by case basis with the approval of the AEAT Coordinator. Please note that students are to follow the planner they received upon entry into the AEAT Program.

Career and Technical Education

Public Safety Academy

Dual Enrollment Program with Prince George's County Community College

Surrattsville High School students participating in the Public Safety Academy program can earn up to 31 Dual Enrollment Credits at Prince George's Community College or opt to enroll in the Fire Cadet Science Program at Gwynn Park High School.

Grade 9 - 997103 Introduction to Public Safety - 1.0 Credit

Grade 10 - 997113 Public Safety 1 - 1.0 Credit

HIGH SCHOOL

Elective Program

Immersion

Chinese • French • Spanish

The benefits of bilingualism are numerous, including greater flexibility in thinking, high rates of academic achievement, and cross-cultural learning and communication. Students will be prepared to compete within the context of the Global Society.

Chinese Immersion

The Chinese Immersion Program is a content immersion model where Chinese Language, mathematics and science are taught in the Chinese language from kindergarten through the 8th grade. The high school program continuation is at Largo High School and models the French Immersion program. Students who qualify may apply and receive Dual Enrollment credit for the 11th and 12th grade courses and earn 12 credits from Prince George's Community College. The high school program is a partial immersion program. For more information, check online at <https://offices.pgcps.org/immersionprograms/>.

Grade 9 - Chinese/Language Arts 9; Chinese Pop Culture 9

High School: Largo HS

French Immersion

The French Immersion Program is a full immersion model where all academic subjects are taught in the French language from Kindergarten through the 8th grade. The high school program continuation is at Largo High School for 9th grade and Central High School 10th-12th grades. The high school program is a partial immersion program. Students who qualify may apply and receive Dual Enrollment credit for the 11th and 12th grade courses and earn 12 credits from Prince George's Community College. For more information, check online at <https://offices.pgcps.org/immersionprograms/>.

Grade 9 - French/Language Arts 9; Pop Culture 9

Grade 10 - French/Language Arts 10; Pop Culture 10

Grade 11 - French/Language Arts 11; AP French Conversation

Grade 12 - French/Language Arts 12; French Literature

High School: Central HS - 10th-12th Grades, Largo HS - 9th Grade

Spanish Immersion

The Spanish Immersion Program is a content immersion model where Spanish Language, mathematics and science are taught in the Spanish language from kindergarten through the 8th grade. The high school program continuation is at Largo High School and models the French Immersion program. Students who qualify may apply and receive Dual Enrollment credit for the 11th and 12th grade courses and earn 12 credits from Prince George's Community College. The high school program is a partial immersion program. For more information, check online at <https://offices.pgcps.org/immersionprograms/>.

Grade 9 - Spanish/Language Arts 9; Spanish Pop Culture 9

High School: Largo HS

International Baccalaureate

The International Baccalaureate (IB) Diploma Programme is rigorous international education offered to motivated students in more than 108 countries. For diploma consideration, students study in six subjects concurrently, complete a Theory of Knowledge course, an extended essay, and Creativity, Activity, and Service (CAS) requirements. The program culminates in a final examination in six subject areas and is widely recognized for college credit eligibility. A student who takes fewer than six IB subjects may be awarded a certificate for the examinations completed and college credit for individual courses. Honors courses and accelerated course sequences for World Languages and Mathematics are prerequisites to enroll in IB, which is available at Central, Crossland, Frederick Douglass, Laurel, Parkdale, and Suitland High Schools. Not all courses are available at all sites. For more information, see the high school counseling office.

Students who enroll in an International Baccalaureate (IB) course are required to take the IB exam upon completion of each course. To be awarded an IB diploma, in addition to the standard high school diploma, a student must acquire a minimum of 24 out of 45 possible points combined on the IB examinations. In addition, the following course requirements must be completed by the end of the senior year in high school: three to four Higher Level (HL) IB courses which constitute a total of 240 hours of instruction. Likewise, students are required to take two to three Standard Level (SL) IB courses which constitute a total of 150 hours of instruction. Students must pass assessments—written, specialized, internal, or external—determined by the nature of the HL or SL course. Additional requirements for the IB diploma include Theory of Knowledge; the Extended Essay; and Creativity, Activity, Service (CAS) three to four hours per week for the two years of the program.

Elective Program

Visual and Performing Arts (VPA)

Dance • Music • Theatre • Visual Arts

HIGH SCHOOL

Visual and Performing Arts, located at Suitland High School (students residing south of Route 50*) and Northwestern High School (students residing north of Route 50*), offers all high school students in Prince George's County educational opportunities designed to prepare them for further scholastic or professional study and career options in the arts. This artistically challenging curriculum combines an educational program that is academically sound and that offers training in the areas of visual and performing arts. Strong association with various arts organizations in the Washington, DC area provides students of the program with unique and distinctive artistic experiences and opportunities. Students study with professional artists, dancers, actors, musicians, singers, and directors/producers as they explore and select to major in one of the principle concentrations.

* Students residing on the border of Route 50 must check SchoolFinder.

High Schools: Northwestern and Suitland

Dance VPA

Grade 12 - Select 2 courses: Draw/Painting 2, Commercial Illustration 2, Printmaking 2, Sculpture 2, Computer Graphics 2, Photography 2

Elective Program

Science and Technology Program (S/T)

Biology • Computer Science • Engineering/Physics • Exploratory • Electives

The PGCPS Science and Technology (S/T) Program is a rigorous four-year high school course of study that provides broad and intensive college-level academic experiences, with content and application focused on science, mathematics, engineering, and technology. The S/T Program is offered at Eleanor Roosevelt High School, Oxon Hill High School, and Charles Herbert Flowers High School. Students may only attend the center that serves their legal residence. The S/T Program is a PGCPS Specialty Program and admits eighth (8th) and ninth (9th) grade students for the upcoming year (entering 9th and 10th grades) after evaluation of their grade point average (GPA) and performance on the PSAT 8/9. Transportation is provided for all students admitted to the S/T Program.

Students are required to obtain a minimum of 13 credits in mathematics, engineering, research, and science courses and select a major in tenth grade to concentrate on those STEM courses as they progress through the program. Major components of the program include:

- external experiences (Internships, mentorships, and field trips);
- enrollment in an Advanced Placement (AP) Completer (or equivalent) is required (Please see chart below for AP course list and equivalencies); enrollment in multiple AP courses is strongly encouraged
- completion of the S/T Program signature process is required for the S/T designation upon graduation (The signature process includes four distinct options outlined below).

A certificate of completion and documentation on a student's PGCPS high school transcript will be awarded to each student who completes the minimum 13 S/T credits and meets the major components of the program with the minimum requirements for high school graduation, and maintains a minimum cumulative GPA of 2.5.

All interested 8th-grade PGCPS students will be considered for admission into the S/T Program as long as they take the PSAT 8/9 at their school. PGCPS 9th grade students interested must apply to be considered for any openings in their current class. The PSAT 8/9 Test Administration will take place in December of the year preceding enrollment. Nonpublic school students in 8th and 9th grade interested in the Science and Technology Program must apply. Please visit www.pgcps.org/offices/testing-research-and-evaluation/testing/high-school-assessment and click on PSAT to obtain additional information.

The required course credits are distributed according to the selected area of study.

	Biological Science	Computer Science	Engineering/ Physics/Chemistry	Exploratory
Science	6	4	4-6	4
Engineering Technology	2	4	2-4	2+
Math	4	4	4	4
Research	1	1	1	1

Science and Technology Program Planner

The program planner is the guide to ensure that students complete the required coursework for high school graduation and the Science and Technology Program. Please refer to the Program Handbook provided to the student/parent by the school coordinator. The Program Handbook will be the official guidance per the cohort school year. This handbook explains the program planner and ways to keep track of course completion. To ensure that S/T students are following the correct schedule sequence, student schedules must be reviewed and approved by the Science and Technology Coordinator. In addition, adjustments made to the schedule sequence are made on a case by case basis with the approval of the S/T Coordinator. Please note that students are given and fill out planners with the Science and Technology Coordinators at their school that are reviewed yearly. All students are to follow the planner they received upon entry into the Science and Technology Program.

HIGH SCHOOL

Elective Program

Early/Middle College

3D Scholars

Prince George's 3D Scholars is a specialized program through which students earn at least 30 credits towards an associate's degree while in high school, then immediately transition to Prince George's Community College (PGCC) to complete their associate's degree, and are then awarded a scholarship to University of Maryland Global Campus (UMGC) to earn their bachelor's degree in one of three areas - Business Administration, Criminal Justice, Computer Networks & Cyber-Security. Students take the PGCC PAS 1000, English 1010, and INT 1010 as their first courses and then they begin taking courses in their individual pathways.

HIGH SCHOOL

UMUC Majors	PGCC Majors
B.S. Criminal Justice	A.A. General Studies, Concentration Criminal Justice
B.S. Networks and Cybersecurity	A.A.S. Cybersecurity
B.S. Business Administration	A.A.S. Business Management
	A.A.S. Marketing Management

For more information, contact the Office of College Readiness, 3DScholars@pgcps.org or 301-499-9222.

Academy of Health Sciences at Prince George's Community College (AHS@PGCC)

The students at the Academy of Health Sciences will receive by the end of their fourth year, a high school diploma and an Associate Degree. See <https://schools.pgcps.org/academyatpgcc/> online for additional information.

Elective Program

Early/Middle College

TalentReady Program

The TalentReady Early/Middle College Program is designed to expand student access to college, prepare students for careers in information technology, and meet the growing demand for local IT talent in the nation's capital. The program prepares students for one of four career paths: software development, networking, data management, and cybersecurity. Each path is comprised of a summer bridge, specialized curriculum, dual enrollment, industry-recognized credentials, work-based learning, and other embedded supports.

Grade 9 - PAS 1000 First Year Experience (Rising 9th Summer Bridge)

Grade 9 - INT 1010 Introduction to Information Technology

Grade 9 - INT 1111 Programming Logic & Design

Grade 10 - NTR 1010 Introductory Nutrition

Grade 10 - COM 1010 Foundations of Communication

Grade 10 - INT 1700 Understanding Operating Systems

Grade 10 - SOC 1010 Intro to Sociology

Grade 11 - BIO 1110 Environmental Biology

Grade 11 - BIO 1120 Environmental Biology Lab

Grade 11 - INT 1540 Computer Hardware 1: A+ Prep

Grade 11 - PHL 1010 Introduction to Philosophy: The Art of Questioning

Grade 11 - INT 1550 Intro to Networks: Network+ Prep

Grade 11 - NT 1620 Computer Security: Security+ Prep

Grade 12 - EGL 1010 Composition I: Expository Writing

Grade 12 - EGL 1340 Composition II: Writing about Technical Topics

Grade 12 - MAT 1140 Intro to Statistics -OR- MAT 1350 Precalculus I -OR- MAT 2410 Calculus I

Grade 12 - PSY 1010 Intro to Psychology

Grade 12 - INT 2840 Systems Analysis and Project Mgmt (capstone)

Systems Administration Track Electives

INT 2300 - Window Desktop Operating System (3 credits)

INT 2310 - Windows Server Administration (3 credits)

INT 2688 - Cloud+ Preparation (3 credits)

INT 2719 - AWS Cloud Computing Architecture (4 credits)

Cybersecurity Track Electives

INT 2681 - Ethical Hacking Certification Preparation (3 credits)

INT 2682 - Introduction to Cybersecurity Analyst (3 credits)

INT 2672 - Advanced Network Access Control (3 credits)

INT 2600 - Computer Forensics I (3 credits)

Data Management Track Electives

INT 2140 - Problem Solving with Spreadsheets (3 credits)

INT 2080 - Fundamentals of Database Management (3 credits)

INT 2081 - Introduction to Oracle (3 credits)

INT 2082 - Advanced Oracle and PL/SQL (3 credits)

Networking Track Electives

INT 1450 - Introduction to Networking (3 credits)

INT 2450 - Switching Routing and Wireless Essentials (3)

INT 2460 - Enterprise Networks and Automation (3 credits)

INT 2688 - Cloud+ Preparation (3 credits)

Computer Science/Programming Track Electives

INT 2240 - Introduction to Python (3 credits)

INT 2200 - Programming in Java (3 credits)

INT 2050 - Mobile Application Development (3 credits)

INT 2130 - Programming in C++ OR INT 2030 Intro Visual Basic (3 credits)

Note: This program is only offered at Largo High School for incoming freshmen. For more information or updates, please contact the Department of Career and Technical Education at (301) 669-6012 or cte.talentready@pgcps.org.

Selected Electives

Vocal and General Music Program

Students are required to complete one (1) credit in Fine Arts in order to graduate. Vocal General Music classes fulfill this requirement (see Fine Arts Graduation Credit page). These courses are designed for the beginning student, as well as those who intend to enter college to obtain a music degree. Students who fulfill this graduation requirement with a vocal concentration may participate in choirs of various levels and specialties as offered. Each music educator offers a choral experience that may include Chamber ensembles, Gospel choir, and/or Concert choir experiences. Within the general music component, students can receive specialized instruction in piano, guitar, and recording technology. Additionally, students may also select classes that concentrate on more general exposure to music through musicianship, or music survey. For the more advanced student, Advanced Placement Music Theory is offered upon meeting the Musicianship prerequisites. For more information, contact the Vocal General Music Office at 301-333-0961.

Instrumental Music

The following courses are offered in Instrumental Music: Basic, Intermediate, and Advanced Band; Basic, Intermediate, and Advanced Orchestra; Special Instrumental Ensemble (must take a band or orchestra course concurrently). All instrumental music courses qualify for Fine Arts credit to meet graduation requirements. All courses require instructor approval to ensure appropriate course placement based upon skill level.

Work/Study Waiver

Any Grade 12 student who has requested to be on work release (Released Time) and cannot enroll in the College Career Research and Development course and can provide documentation of financial hardship may request a half-day academic schedule. The following steps must be implemented:

1. The student meets all of the requirements identified above.
2. The student provides a letter to the principal documenting the reasons for requesting a work/study waiver that substantiates financial hardship. The letter must be written by the parent/guardian and confirmed by the principal or his/her designee via telephone. The principal will then determine approval or denial. Communication must be made by the principal to the parent and student informing them of his/her decision.
3. If approved, the student must present a letter from his or her employer on letterhead within 5 school days stating that the student is currently employed with the company. Once this information is received the student is granted a half-day schedule.
4. The student is then required to provide a letter of work confirmation from the employer quarterly. The window for accepting the letter is listed below:
 - a. End of 1st Quarter: If the student fails to provide employment documentation, the parent will receive written notification from the school that the student will possibly be enrolled in a full-day schedule.
 - b. End of 2nd Quarter: If the student fails to provide employment documentation, the parent will receive written notification from the school that the student will be enrolled in a full-day schedule.
 - c. End of 3rd Quarter: If the student fails to provide employment documentation, the parent will receive written notification from the school that the student will possibly be enrolled in a full-day schedule.
5. All work/study approval files must be kept in the principal's office for one (1) year for further review if needed. Contents of the student file are as follows:
 - a. Letter from parent requesting work/study waiver due to financial hardship. Notes from principal stating approval or denial of request and time/date of verbal confirmation with parent.
 - b. Letter from employer on letterhead confirming student is currently employed.
 - c. Quarterly documentation showing proof of employment or letters from the school informing the parent that the student will be placed on a full-day schedule.

International Student Transfer Credits Toward Graduation

Determining cohort and graduation requirements for international students: Students entering the United States for the first time as high school students, shall be required to meet the graduation requirements aligned to the first school year in which the student entered high school in the United States. For international students, the International Student Admissions and Enrollment Office (ISAEO) will make this determination and assign the student to the correct cohort.

Course credits for international transfer students will be reviewed and evaluated by International Student Admissions and Enrollment Office (ISAEO) staff. Entering students who have previously completed and passed the subject of interest in their home countries will be awarded credits for course work as reflected below. International transfer students are required to meet the same Prince George's County Public Schools course and assessment requirements for graduation as any other transfer student.

Note: All science classes on international transcripts will be first evaluated using specific PGCPs course names and numbers eligible for the graduation requirement categories of Life Science, Physical Science and Earth and Space Science. The Science 1 ISCO, Science 2 ISCO, and Science 3 ISCO course names and numbers will only be used if the student has science courses in addition to those graduation requirements and only in cases where an appropriate PGCPs course name and number cannot be applied.

All ISCO courses may be used to meet graduation requirements.

These native language credits may be awarded, in lieu of taking World Languages classes.

Native Language 1 — 9th grade and above

Native Language 2 — generally 10th grade and above

Native Language 3 — generally 11th grade and above

Mathematics 1 ISCO Semester

Credits: 0.5 Math

A half credit of Mathematics instruction received in a school outside the United States. Credit may only be granted by the International Student Admissions and Enrollment Office (ISAEO) upon evaluation of a foreign transcript.

Mathematics 1 ISCO

Credits: 1.0 Math – see testing requirements below.

International students entering Prince George's County Public Schools with a course title of Mathematics on their school records will be assigned this transfer credit for the mathematics course completed and passed in their home country in the equivalent of Grade 9 and above. This course code may be changed as a result of the administration of the *Mathematics Placement Test for ESOL and International Students* (see Bulletin PS -05-97, Mathematics Credits for International Students). If a student passes the locally administered test for Algebra 1 or above, the credits will be changed to reflect a passing score for the course for which the test was taken and passed.

Mathematics 2 ISCO

Credits: 1.0 Math – see testing requirements below.

International students entering Prince George's County Public Schools with a course title of Mathematics on their school records will be assigned this transfer credit for the mathematics course completed and passed in their home country in the equivalent of Grade 10 and above. This course code may be changed as a result of the administration of the *Mathematics Placement Test for ESOL and International Students* (see Bulletin PS -05-97, Mathematics Credits for International Students). If a student passes the locally administered test for Algebra 1 or above, the credits will be changed to reflect a passing score for the course for which the test was taken and passed.

International Student Transfer Credits Toward Graduation (cont'd)

Mathematics 3 ISCO

Credits: 1.0 Math – see testing requirements below.

International students entering Prince George's County Public Schools with a course title of Mathematics on their school records will be assigned this transfer credit for the mathematics course completed and passed in their home country in the equivalent of Grade 10 and above. This course code may be changed as a result of the administration of the *Mathematics Placement Test for ESOL and International Students* (see Bulletin PS -05-97, Mathematics Credits for International Students). If a student passes the locally administered test for Algebra 1 or above, the credits will be changed to reflect a passing score for the course for which the test was taken and passed.

Science 1 ISCO

Credits: 0.5 Science

A semester (1/2) credit of Science taken in a school outside the United States. Requires evaluation of foreign transcript by the International Student Admissions and Enrollment Office (ISAE).

Science 1 ISCO

Credits: 1.0 Science

International students entering Prince George's County Public Schools, with a course title of Science on their school records, will be assigned this transfer credit for the science completed and passed in their home country in the equivalent of grade levels 9 and above.

Science 2 ISCO

Credits: 1.0 Science

International students entering Prince George's County Public Schools, having completed a second science course in their home country, will be assigned this transfer credit for the science completed and passed in their home country in the equivalent of grade levels 9 and above.

Science 3 ISCO

Credits: 1.0 Science

International students entering Prince George's County Public Schools, having completed a third science course in their home country, will be assigned this transfer credit for the science completed and passed in their home country in the equivalent of grade levels 9 and above.

Native Language 1

Credits: 1.0 World Languages; Completer

International students entering Prince George's County Public Schools, having completed the course work in their Native Language (Grade 9 and above), may receive foreign language credit for that language.

Native Language 2

Credits: 1.0 World Languages; Completer

International students entering Prince George's County Public Schools, having completed the course work in their Native Language (Grade 9 and above), may receive a second foreign language credit for that language.

Native Language 3

Credits: 1.0 World Languages; Completer

International students entering Prince George's County Public Schools, having completed the course work in their Native Language (Grade 9 and above), may receive a third foreign language credit for that language.

Service-Learning as a Graduation Requirement

See Administrative Procedure 6151 for updates

The Service-Learning Graduation Requirement was passed in 1992 by the Maryland State Department of Education. This requirement mandates that public school students earn a minimum of 75 hours of service-learning prior to graduation. Service-learning is a teaching method that combines meaningful service to the community with curriculum-based learning. Students improve their academic skills by applying what they learn in school to the real world; they then reflect on their experience to reinforce the link between their service and their learning. (*Learning In Deed*)

All Prince George’s County Public Schools students must engage in infused and independent service-learning hours in order to graduate from high school. Infused service-learning hours are service-learning hours earned within the context of a structured service activity included in an academic course. Independent service-learning hours are service-learning hours that are independently earned at a community-based site that is chosen by the student.

Service-Learning has been infused into the science and social studies curricula for Grades 5–10. Middle school students are required to earn a minimum of eight (8) hours prior to entering high school. Students must meet the remaining service-learning requirements established per their 6th grade year in middle school in order to graduate with a Maryland High School Diploma. To earn infused service-learning hours, students must (1) actively engage in all service activities in the class, and (2) earn a letter grade of at least a “D.” Students who successfully complete the above requirements in every course where service-learning has been infused will earn a total of 51 infused service-learning hours by 10th grade (see following table).

Curriculum-Infused Service-Learning

GRADE	DEPT.	COURSE NAME	HOURS
5	Science	Grade 5 Science	4
6	Science	Grade 6 Science	4
6	Social Studies	World Cultures and Geography I: The Western Hemisphere	4
7	Science	Grade 7 Science	4
7	Social Studies	World Cultures and Geography II: The Eastern Hemisphere	4
8	Science	Grade 8 Science	4
8	Social Studies	United States History I: The Revolution to Reconstruction	4
9	Social Studies	United States History II: Reconstruction to the Present	7
9	Science	Biology	7
10	Social Studies	Local, State, and National Government	9
Total			51

Service-Learning as a Graduation Requirement (cont'd)

For students who transfer into Prince George's County Public Schools

The student service-learning graduation requirement is linked to the grade of first enrollment into Prince George's County Public Schools. Service-learning hours will be prorated for students transferring into Prince George's County Public Schools **for the first time** in Grade 8.

For students transferring into Prince George's County Public Schools for the first time between Grade 1 and Grade 7, there will be no proration of required service-learning hours (these students must earn all 75 service-learning hours). Required service-learning hours will be adjusted for students who transfer into the system at 8th grade or later in the following manner:

- Students who enroll in PGCPSS for the first time during Grade 8 must complete **31 infused** service-learning hours and **20 independent** service-learning hours before high school graduation.
- Students who enroll in PGCPSS for the first time during Grade 9 must complete **23 infused** service-learning hours and **20 independent** service-learning hours before high school graduation.
- Students who enroll in PGCPSS for the first time during Grade 10 must complete **9 infused** service-learning hours and **21 independent** service-learning hours before high school graduation.
- Students who enroll in PGCPSS for the first time during Grade 11 must complete **20 independent** service-learning hours before high school graduation.
- Students who enroll in PGCPSS for the first time during Grade 12 must complete **10 independent** service-learning hours before high school graduation.

The student should check with the School-Based Service-Learning Coordinator or Professional School Counselor to confirm that hours have been recorded.

For more information, visit <https://www.pgcpss.org/offices/student-services/student-service-learning> or call 301-952-6395.

Benefits of Service-Learning

Service-learning enriches the lives of all students. It promotes personal, social, and intellectual growth, as well as civic responsibility. Desirable outcomes through participation in service-learning activities include:

Personal Growth

- Self-confidence, self-understanding, and self-respect
- A sense of identity
- Independence and autonomy
- Openness to new experiences and roles
- Ability to take risks and accept consequences
- A sense of usefulness and purpose
- Development of personal values and beliefs
- Responsibility for oneself
- Ability to follow directions
- Ability to function as a member of a team
- Workplace etiquette and attendance skills (punctuality and consistency)

Social Growth

- Communication skills
- Leadership skills
- Ability to work cooperatively with others
- A sense of caring for others
- A sense of belonging
- Acceptance and awareness of others from diverse and multicultural backgrounds
- Peer group affiliation

Intellectual Growth

- Application of knowledge derived from the curriculum
- Problem solving and decision making skills
- Critical thinking skills
- Skills in learning experience
- Use of all learning styles
- Development of positive attitude toward learning

Citizenship and Civic Responsibility

- A sense of societal responsibility
- Democratic participation
- Awareness of community needs
- Organization skills
- Social action skills
- Community empowerment

Independent Service-Learning Procedures for All Students

1. Selecting a Service Site

- Students may find an approved service-learning site by going to <https://www.pgcps.org/offices/student-services/student-service-learning/student-service-learning-opportunities>. Students who want to complete independent service-learning hours at a site that is not listed must complete the Site Approval Form and submit it to their School-Based Service-Learning Coordinator or Professional School Counselor for approval **prior** to starting any service activities at the site.
- Sites must be non-profit, tax-exempt, community-based organizations or for-profit nursing homes, hospitals, or licensed day-care facilities. Government facilities (federal, state, and local) are considered non-profit organizations.
- Service-Learning activities whose purposes are to collect food, clothing, or other items necessary to benefit others and meet human needs, even if done in conjunction with a faith-based agency or institution, may be counted toward the service-learning graduation requirement.
- Service-Learning activities whose purposes are to increase voter registration and participation and/or implement voter education activities on particular issues may be counted toward the service-learning graduation requirement. Students may receive independent SSL hours to endorse or campaign for an individual candidate or party (slate of candidates) beyond normal school hours (before or after school, weekends, or holidays).
- Students may not earn hours proselytizing. Any service-learning activity whose chief purpose is to convert others to a particular religious or spiritual view and/or which denigrates the religious or spiritual views of others may not be counted toward the service-learning graduation requirement.
- Any service-learning activity whose chief purpose is to help prepare and/or participate in the performance of a religious service or religious education activity may not be counted toward the service-learning graduation requirement.
- Babysitting at home, for a neighbor, or a relative is not acceptable for service hours.
- Students may complete independent service-learning hours at more than one location.

2. Earning Service-Learning Hours

- The student must make arrangements with the approved site to perform the service hours. Students should identify ahead of time the site representative that will supervise and verify the hours that will be earned by the student.
- If the student would like to earn hours at a site that is not an approved site (i.e., the site is not listed on the PGCPs Service-Learning website, <https://www.pgcps.org/offices/student-services/student-service-learning>, then he/she must get approval to complete service at that site by completing the Service-Learning Site Approval Form and submitting it to the School-Based Service-Learning Coordinator or Professional School Counselor. **Hours completed at an unapproved site will not count toward meeting the service-learning requirement.**
- The site representative reviews, approves, and signs the verification form.

3. Submitting Service-Learning Hours

- The student must take the completed and signed verification form to the School-Based Service-Learning Coordinator or Professional School Counselor at his/her school. Note that parents and guardians may not verify hours for their own children.
- The School-Based Service-Learning Coordinator or Professional School Counselor reviews and signs the form and keeps a copy so the hours can be recorded on the student's permanent record. The student should keep a copy of all submitted Student Service-Learning Verification forms for his/her portfolio and as proof of completing the hours.

- The deadlines for submission of the Student Service-Learning Verification forms are as follows:
 - October 15 (for any independent hours obtained between July 1 and August 30)
 - January 31 (for any independent hours obtained between September 1 and January 31)
 - July 15 (for any independent hours obtained between February 1 and June 30).
- Upon approval of the Student Service-Learning Verification Form, the School-Based Service-Learning Coordinator or Professional School Counselor will then submit the verification form for entry into the student's file in the SchoolMAX database and file the form in the student's cumulative folder.

All Service-Learning forms are available on the service-learning website at <https://www.pgcps.org/offices/student-services/student-service-learning/student-service-learning-forms-and-documents> or from your school-Based Service-Learning Coordinator or Professional School Counselor.

Examples of Independent Service-Learning Projects

- Tutor at an after-school program
- Work with a program that promotes positive messages to young children
- Participate in a reading program to read to children at a local library
- Assist city governments or civic associations with the planting of trees, flowers, or a park clean-up
- Participate in the Adopt-A-Highway program
- Establish a recycling program in the community
- Work with the local Boys and Girls Club
- Help with the Boy Scouts/Girl Scouts or Little League
- Work on a community clean-up campaign
- Assist at the local nursing home or hospital
- Organize a walk-a-thon to support diabetes research
- Set-up a tutor/buddy program for international students

This list includes only a few suggestions for independent service-learning activities and is not a complete list. Students are encouraged to be creative in developing their own service-learning projects. Remember that service-learning hours must be earned in a non-profit setting. The only for-profit organizations that are permitted are nursing homes, hospitals, and licensed day-care facilities.

For more information, visit <https://www.pgcps.org/offices/student-services/student-service-learning> or call 301-952-6395.

Preparation, Action, and Reflection are Central to Service-Learning

According to the Maryland State Department of Education (2007), service-learning projects must include academic preparation, service activities, and structured reflection.

1. Preparation

Equipping students with the knowledge and skills needed for service. This includes teaching students about their community and how to identify needs, as well as providing them with the specific skills needed to perform the service activity. It should include an exploration of why it is important to perform service and what it means to be an active citizen. Ideally, service-learning should be used to teach curricular objectives, so preparation activities could be tied to classroom lessons.

2. Action

Performing one or more of the following activities:

- **Direct Service:** Students have face-to-face contact with the service recipients. For example: tutoring; serving meals at a homeless shelter; working with the elderly in a nursing home, etc.
- **Indirect Service:** Students perform a service without having face-to-face contact with the recipient. Usually resources are channeled to help alleviate a problem. For example: food & clothing drives; thons or fundraisers; environmental projects, etc.
- **Advocacy:** Students educate others about a particular issue with the goal being to eliminate the cause of a particular problem. For example: writing letters to legislators or editors; preparing and displaying posters, plays, or other educational materials for others, etc.

3. Reflection

Thinking about the service performed and how it impacted the community. Considering what worked well and what could be changed to make the project better. This contemplation and evaluation should occur throughout the service experience, not just at the end of the project.

Examples: responding to guided questions in a journal; having a classroom discussion; preparing a piece of artwork or skit about the service experience; videotaping the project and reviewing/discussing it afterwards, etc.

Service-Learning is not the same as...

Volunteerism: Volunteers engage in service for a variety of personal reasons. They do not necessarily link their service to academic studies nor do they receive academic credit for their efforts.

Community Service: People engaging in community service do so for a variety of reasons. This is a broad term that can encompass court ordered, stipended, or volunteer service. It also does not necessarily link to academic studies.

Work Study Internship: Student interns frequently work at a for-profit business to benefit the financial standing of that business. They are not necessarily working to improve their communities through these internship experiences. There can be overlap between work study internships and service-learning. Students are engaged in service-learning if through their internship experiences they work to improve the health or welfare of their community, while linking this to their academic studies. (MSDE, 2007)

Assessment Requirements

Updates available at Maryland State Department of Education website

According to MSDE's Division of Assessment, Accountability and Performance Reporting Updates in September 2022, students were waived from the accountability assessment requirement for the 2019-2020 school year due to the global pandemic. For school years 2020-2021, 2021-2022, and 2022-2023, students would be required to participate in, but not pass, the assessments for Algebra 1, English 10, Life Science, and Government.

The current Code of Maryland Regulations (COMAR) 13A.03.02.06 identifies the following courses as having an End of Course (EOC) Exam requirement:

- Algebra 1
- English 10
- Life Science
- Government

On June 28, 2022, the Maryland State Board of Education (MSBOE) approved a waiver for the EOC Exam requirement for all courses in the 2022-2023 school year. The waiver also includes the EOC Exam to be counted as 20 percent of the final course grade (COMAR 13A.03.02.06.H). The MSBOE has determined that EOC exams will be implemented starting in the 2023-2024 school year. The MSDE is working to support the EOC Exams for Life Science and Government. COMAR 13A.03.02 Graduation Requirements for Public High Schools and EOC Exam implementation are pending revisions.

Beginning with the 2023-2024 school year, all first-time 9th grade students will have the EOC Exam incorporated into their final course grades as required by 13A.03.02 Graduation Requirements for High Schools in Maryland.

For the 2022-2023 school year, MSDE has made several updates to the language pertaining to graduation requirements and assessments, therefore, this administrative procedure will be continuously updated to reflect all new and future regulations, policies and legislation language that is administered by the state for local education agencies to adhere to. Also, refer online to the Maryland Comprehensive Assessment Program (MCAP) website for updates regarding End of Course Exams (EOCs).

Additional Ways for Earning Graduation Credit

High School Graduation Credit for Middle School Students

Middle school students who meet prerequisites for a high school course may earn credit toward high school graduation where options are available. Schools are required to complete and document the steps for acceleration per Administrative Procedure 5123.2 General Procedures Pertaining To Promotion, Retention and Acceleration of Students and to register students for course numbers specified as Credit Earned Prior to High School Enrollment in the SchoolMAX student information system.

See Section “Additional Ways for Earning Graduation Credit” for options:

- Online courses
- Summer school
- Transfer into PGCPs with prerequisites and earned high school credit (Test of Achievement and Proficiency may be required)

Grades and credits (passing or failing) will be reflected on the student’s permanent record, high school transcript, and cumulative grade point average.

Online Courses

Students in Prince George’s County Public Schools have the opportunity to take certain approved online courses needed for credit recovery, graduation credit, and accelerated learning opportunities. The online course must be a scheduled period in the student’s school day. Online students must be highly motivated, independent learners. They must have approval from their parent, principal, and school counselor. Students should contact their Professional School Counselor for more information about online options. Online course availability is contingent upon MSDE approval.

Summer School

The secondary Summer School program is planned for students who are presently enrolled during the day or evening. A student has the opportunity to attend summer school where he/she may take either repeat courses or original credit courses upon prior approval by the principal of the home school.

The principal must give prior written approval for a student planning to attend a summer school other than Prince George’s County Public Schools’ Summer School. Courses taken outside of the county public schools must be taken in schools that are accredited and/or state approved in order to receive credit. If he/she intends to graduate, the student is responsible for submitting a diploma request form prior to attendance and the home school is responsible for submitting the student’s name for diploma printing in accordance with established procedure.

Registration forms are available in the counseling offices of all middle and high schools. Summer grades are recorded separately from Fall and Spring grades. Seniors may not use summer grades toward the four course requirement for the Fall or Spring semester. Summer school does not count toward the four courses required senior year.

For additional information, call the Area 3 Office at 240-696-8659.

Admission of Students from Non-Approved or Non-Accredited Schools

See Administrative Procedure 5111.2 Admission of Students from Non-Approved or Non-Accredited Schools

Additional Ways for Earning Graduation Credit (cont'd)

High School students only

Evening Program

The Evening Program is a virtual pilot program that is conducted in the evenings for students enrolled in grades 9 to 12 at comprehensive boundary high schools. See the school counseling office for additional information.

Concurrent and Dual Enrollment

A student in grades 9 to 12 may fulfill graduation requirements by being enrolled in both high school and college. See the last page of this document for related procedures, bylaws and guidelines, www.pgcps.org/offices/dual-enrollment and Administrative Procedure 6155 Dual Enrollment Program for additional information on Dual Enrollment.

Public Charter Schools

Public Charter Schools are nonsectarian, tuition-free public schools chosen by parents, and are open to all students who reside in Prince George's County on a space available basis. Public Charter Schools do not have attendance boundaries like traditional schools. A random selection lottery application system is used for enrollment in Public Charter Schools (see <https://offices.pgcps.org/charters/> for more information). By design, a Public Charter School has more freedom than a traditional school in return for a commitment to meet higher standards of accountability.

While Charter School programs may have different requirements, all Charter schools must follow MSDE graduation requirements for students to graduate.

High School Graduation Fact Sheet

Unit of Credit

A unit of credit is locally assigned by clock hours or by successful demonstration of learning outcomes.

Required Credits

Depending on the first year a student enrolled in ninth grade, twenty-one (21) or twenty-two (22) credits are required to graduate from high school from Prince George's County Public Schools (see pages 13 and 14). Effective with the Class of 2019 (entering freshmen of Fall 2015), students must be enrolled and have taken a minimum of four full credit courses or a combination of full and partial credit courses to total a minimum of four credits over the course of the academic year. The minimum of four credits worth of courses must include at least one high school course; remaining courses may include Dual Enrollment. All MSDE graduation requirements must be satisfied. All MSDE graduation requirements must be satisfied.

Course Descriptions

The publication High School Courses and Programs of Study contains descriptions of each course offered in Prince George's County Public Schools and is available online at <https://www.pgcps.org/offices/chief-academic-officer/courses-and-programs-of-study>.

Prerequisites

Enrollment in a course may be allowed only if a previous course has been completed. See the High School Courses and Programs of Study publication which describes the content of each course offered in Prince George's County Public Schools and course prerequisites. Courses taken at a college or university for dual enrollment will follow the college's prerequisite guidelines.

Enrollment

The student shall satisfactorily complete four years of approved study beyond the 8th grade unless on an approved option.

Promotion and Retention

See Administrative Procedure 5123.2.

Quality Point Average or Grade Point Average

The following numerical equivalents will be used in computing the QPA from report card letter grades. Weighted refers to courses receiving a numerical advantage in calculating grade point average. In the case of honors, the advantage is an additional .5 points added to the grade value. Weighted credit will only be applied to courses that are eligible in PGCPs. Honors weight is effective school year 2016-2017 and after.

Quality Points			
Grade	Advanced Placement International Baccalaureate Dual Enrollment Weighted	Honors Weighted	Regular Non Weighted
A	5.0	4.5	4.0
B	4.0	3.5	3.0
C	3.0	2.5	2.0
D	2.0	1.5	1.0
E	0.0	0.0	0.0

Final Grades

For semester and year-long courses, the procedures for determination of final grades are found in Administrative Procedure 5121.

High School Graduation Fact Sheet (cont'd)

Student Service-Learning

The student shall complete a locally developed, state-approved program that includes service-learning infusion in designated courses, preparation, reflection, and a specified number of hours of independent service.

Assessments

See Assessment section of this Administrative Procedure.

Certificate of Merit

To be awarded the Certificate of Merit, along with the Maryland High School diploma, a student must be in the top 5% of his or her graduating class.

College Credit

College-level curriculum in a variety of subjects is available in high schools for qualified students through Advanced Placement, Concurrent Enrollment, Dual Enrollment, International Baccalaureate, and Career and Technical Education courses. Tests are given at the end of the course for a fee in some cases. Satisfactory scores on these examinations, with the approval of the receiving college, provide students an opportunity to earn credit for, and exemption from, these courses in college.

World Exchange Program

There will be a Maryland International Student certificate for students who participate in a World Exchange Program and who complete at least one year of study in a Maryland public high school. World exchange students who meet all of the graduation requirements may be awarded a Maryland High School Diploma in addition to the Maryland International Student Certificate.

Transfer Students

The proficiencies of transfer students should be assessed before the students are scheduled into required courses. The principal is responsible for ensuring that students are placed in courses that parallel the content of previous school course work. Consideration must be given to appropriate placement in order to minimize any penalty to the transfer student. However, scheduling of a transfer student may be accomplished tentatively in accordance with Administrative Procedure 5111, utilizing the Tentative Grade or Subject Agreement for Placement of Enrolling Students, PS-126, when records are not available or the student is from a non-accredited school.

General Educational Development (GED) Test

A student may be awarded a high school diploma, issued by the state of Maryland, upon successful completion of the General Educational Development Test, provided the student is 16 years of age or older and has officially been withdrawn from a regular high school program for at least three months.

Programs of Study

Along with academic requirements, students have the option to complete a sequence of career-related courses that connect the classroom to the real-world practical application of knowledge. Depending on the program, students may also earn professional certifications, licenses, or college credit as well as work-based learning experience while still in high school.

Athletic and Extracurricular Eligibility

See Administrative Procedure 5122.

Retaking Courses

Courses on a grade level are meant to be sequential with successful completion of one grade level being a prerequisite for enrolling in the next grade level. Students failing a grade level course have the following options to make it up. They may repeat that course in one of the following ways:

- Evening Program;
- Summer School; or
- Day School.

A student failing an assessment course may repeat the course during the day for credit recovery. In addition, students may make it up in one of the following ways:

- Evening Program, or
- Summer School.

The student will retake the assessment upon completion of the course unless the student passed the assessment.

A senior who fails a half-credit course during the first semester and needs that half credit for graduation can make up that credit only through enrollment in an evening program during the second semester or summer school.

The principal may authorize exceptions based on the needs of a student.

See Administrative Procedure 5121.3 Grading and Reporting High School for grading processes.

Withdrawal Procedure

When a student withdraws from a course on or after the first day of the beginning of a course, Form PS-141 (Course Withdrawal Form) must be completed in all cases.

If a student drops a course prior to the 21st school day (in the case of a 4-period day, the drop must occur before the 11th day) from the start of a course, there will be no recording of the course or grade on any office school system documents.

A student may request to drop a course after twenty (20) school days from the start of the course (in the case of a semester course, after the 10th day), through the Professional School Counselor for approval by the Student Intervention Team. The grade achieved to date must be recorded on that quarter's report card. The grade must be used in determining the student's quality point average (QPA) for that specific quarter only. For grade reporting purposes, the date of withdrawal will be the start of the next quarter. The dropped course title, a "W" (Withdrawal), and no credit (0.00) will appear on all official school system documents beginning with the marking period immediately following the marking period in which the course was dropped. Students may enroll in another credit-bearing course during the semester in which the withdrawal occurs only if it is within the same content area as the dropped course, e.g., Chemistry to Earth Science.

In special circumstances where it is necessary for a student to withdraw from school one month or less before the end of the school year, it shall be necessary for the student to resolve the awarding of credit with the principal prior to leaving school. Exceptions to this policy are to be referred to the Associate Superintendent.

Concurrent Enrollment with a Postsecondary School

Educational options are available to students presently enrolled in the Prince George's County Public Schools. The student and parent(s)/guardian(s) must work very closely with the school counselor in preparation for the option of concurrent enrollment.

- a. A student may fulfill graduation requirements by being concurrently enrolled in two different educational programs. High school credit and post-secondary credit may be applied toward graduation requirements.
- b. Students who attend a college that is not eligible for dual enrollment and/or take a course that does not have a high school equivalent may earn 0.5 non-weighted elective credit maximum per course. To do this, the following procedures must be followed:
 1. The high school principal must approve all requests prior to student enrollment in a college course.
 2. The student, parent/guardian, counselor, and principal must sign the Concurrent Enrollment Form PS-109, Request for Concurrent Course Enrollment Form.
 3. In order to apply college credit toward high school credit, the college course (content, not title) must be different from courses available at the student's home high school. The student will be responsible for submitting a copy of the course outline or syllabus to the Chief Academic Officer.
 4. The student is responsible for requesting that the college records office sends an official college transcript to the principal at his/her home school immediately upon completion of the course.
 5. A student will earn one-half (0.5) non-weighted high school elective credit per semester, per college course, no matter how many credits the college awards.
 6. A student may earn a maximum of two concurrent enrollment high school credits per year, including summers, through concurrent enrollment college course work.
 7. In recognition that the conditions presented above may not be appropriate for particularly exceptional students, a request for exemption from any of these conditions may be made in advance of enrollment in a college course. The exemption must be requested in writing and approved by the high school principal and the Director of Curriculum and Instruction.
 8. The grade earned from course(s) taken at institutions of higher learning will be included in the computation of the high school grade point average.
- c. A student may be enrolled in Concurrent Enrollment for no credit, if the student selects no credit on the PS-109A, in order to have travel time or college work scheduled.
- d. Concurrent Enrollment for credit is not available to spring semester seniors. The final grade will not arrive in time to be recorded on the transcript for spring semester seniors system-wide.
- e. Schools with Memoranda of Understanding with post-secondary institutions adhere to MOU content.

Parents/guardians may appeal a decision on an educational options request upon receipt of the denial letter by writing to the Executive Director of Student Services.

Dual Enrollment

Students are encouraged to take advantage of opportunities to earn college credits while still in high school. For information on Dual Enrollment opportunities, go online to www.pgcps.org/dualenrollment.

Early Graduation Options

All seniors must be enrolled in courses daily to meet their graduation requirements. For example, a student may be enrolled in English 12 and a Mathematics credit at the high school level. A student may be enrolled in English 12 at the high school and take a dual enrollment credit in Mathematics or vice versa. Once English 12 and Mathematics are addressed, other courses are added as needed.

Students may opt to pursue an alternative to the four-year enrollment requirement per COMAR 13A.03.02.10.

In recognition that 4-year enrollment in a public high school may not serve the best interests of some students, the following alternative plans are available.

- A. Early College Admission Program. A student may receive a Maryland High School Diploma through acceptance in the early college admission program, if:
- (1) The student has a 2.5 cumulative grade point average and is accepted for early admission to an accredited college before high school graduation;
 - (2) All Maryland High School Testing and Student Service learning requirements have been met;
 - (3) A written request by the student and parent or guardian is made to and approved by the local superintendent of schools certifying the early admission acceptance;
 - (4) The student's program for the first year of college is approved by the local superintendent of schools if this program is included toward the issuance of a diploma; and
 - (5) At the conclusion of a full year of study, a written request for a Maryland High School Diploma is submitted to the superintendent together with a transcript or letter from the college to the high school principal indicating that the student has successfully completed a year of college work.
- B. Early Admission to Approved Vocational, Technical, or Other Postsecondary School Program. A student may receive a Maryland High School Diploma through acceptance in an early admission program of an approved vocational, technical, or postsecondary school program if:
- (1) The student is accepted for early admission by an approved vocational, technical, or postsecondary school program before high school graduation;
 - (2) All Maryland High School Testing and Student Service learning requirements have been met;
 - (3) A written request by the student and parent or guardian is made to and approved by the local superintendent of schools certifying the early admission acceptance;
 - (4) The student's program for the first year of the postsecondary program is approved by the local superintendent of schools if this program is included toward the issuance of a diploma; and
 - (5) At the conclusion of a full year of study, a written request for a Maryland High School Diploma is submitted to the superintendent together with a transcript or letter from the postsecondary school to the high school principal indicating that the student has successfully completed a year of postsecondary school work.

PGCPS

To apply for Early Admissions, a student must complete the following steps.

1. During the sophomore year of high school:
 - a. The Professional School Counselor must meet with the student and parent/guardian to discuss the requirements for graduation and post secondary plans.
 - b. A plan must be developed for meeting all graduation requirements including courses, testing, and service learning.
 - c. The waiver application must be submitted to the Professional School Counselor prior to the end of the 3rd quarter.

Early Graduation Options (cont'd)

- d. Upon pre-approval by the principal, the student must take and pass their 3rd English course, during the summer prior to the 3rd year of high school, unless the student will complete the 4th English credit at the approved post-secondary option.
2. During the 3rd year of high school:
 - a. The Professional School Counselor and student must complete a graduation agreement.
 - b. Prior to the 3rd quarter of the 3rd year in high school, the pre-approval packet including an up to date transcript, progress report, and post-secondary acceptance letter must be forwarded to the Supervisor of School Counseling.
 - c. The Chief Executive Officer will approve the student's program for the first year of the post-secondary study if this program is included toward the issuance of a diploma.

Upon the completion of one year of Post Secondary Education, a written request for a Maryland High School Diploma is submitted to the high school principal and forwarded to the Supervisor of School Counseling together with a transcript or letter from the postsecondary school indicating that the student has successfully completed a year of postsecondary school work.

Waiver of 4th Year Requirement

An alternative plan may include a waiver of the fourth year enrollment requirement for students who have met graduation requirements.

To apply for a waiver the following steps must be taken:

1. During the sophomore year of high school:
 - a. The Professional School Counselor must meet with the student and parent/guardian to discuss the requirements for graduation and post secondary plans.
 - b. A plan must be developed for meeting all graduation requirements including courses, testing, and service learning.
 - c. The waiver application must be submitted to the Professional School Counselor prior to the end of the 3rd quarter.
 - d. Upon pre-approval by the principal, the student must take and pass their 3rd English course, during the summer prior to the 3rd year of high school.
2. During the 3rd year of high school:
 - a. The Professional School Counselor and student must complete a graduation agreement.
 - b. Prior to the 3rd quarter of the 3rd year in high school, the pre-approval packet including an up to date transcript and progress report must be forwarded to the Supervisor of School Counseling.

The Chief Executive Officer will send a final approval letter prior to graduation.

Early Graduation Options (cont'd)

Mid-Year Graduate

A Maryland High School diploma is awarded to students who fulfill enrollment requirements, credit, testing, and service hour requirements. Students who have fulfilled such requirements are eligible to be considered for mid-year graduation. Below is guidance on the selection of mid-year graduates and the mid-year graduate certification process.

Definition of a Mid-Year Graduate: Students who have satisfied all Maryland State Department of Education (MSDE) graduation requirements at the end of the first semester of their fourth year are eligible to graduate in January of their senior year.

Students Who Qualify:

- Fifth-year students who have satisfied all Maryland State Department of Education graduation requirements at the end of the first semester of their fifth year of high school are eligible to graduate in January of their fifth year.
- Fourth-year students who have satisfied all Maryland State Department of Education graduation requirements at the end of the first semester of their fourth year of high school are eligible to complete high school in January of their fourth year.

Students who meet one of the requirements listed above and would like to be considered for mid-year graduation should consult with their professional school counselors by October 1.

Early College or Middle College programs

Students who participate in an Early College or Middle College program are inherently early admissions students and may use the postsecondary courses for the four (4) course enrollment requirement after completion of Grade 11.

MONITORING AND COMPLIANCE:

In an effort to ensure that the graduation requirements and options are adhered to consistently within schools, the following monitoring tools and processes will be utilized annually. School Principals or their designees will oversee processes by which the following requirements are achieved.

1. Secondary administrators and school counselors will review the graduation requirements and options procedures prior to students arrival at the beginning of each school year. A record containing staff signatures to signify completion of this task will be kept on file in the principal's office for four (4) years.
2. Secondary school counselors will evaluate student records annually to ensure that each student meets enrollment and credit requirements.
3. Principals, or their designees, are responsible for overseeing evaluation of student records annually.
4. Middle school counselors and administrators will review registration to ensure that middle school students take the courses that are required each year and to ensure that middle school students have an opportunity to participate in required assessments.
5. High school counselors and administrators will review registration to ensure that high school students take the courses that are required for graduation.
6. High school counselors and administrators will review assessment results and service hours annually to provide guidance to students on their standing for the graduation requirement.
