

# **Northwestern High School Peer Mediation/Conflict Resolution Program**

The Peer Mediation and Conflict Resolution Program will assist students in dealing with conflict. The major objectives of this program are to provide a safe environment that will allow for the peaceful resolution of conflicts, and to assist the disputing parties in reaching a continuing peaceful resolution.

Mediators are trained individuals who are capable of helping participants communicate, listen and come up with their own solutions. The proceedings are confidential. Parties outside the dispute are allowed in only with the permission of all participants.
