

## Format for Works Cited Page -- MLA

General notes on Works Cited or Bibliography Pages:

- Alphabetize your Works Cited Page according to the authors' names, not according to the format.
- Dates are usually written in the following form: "1 Jan. 2007." Don't abbreviate May, June, July.
- If an article is "unsigned" – that is, there is no author given -- then begin with the title. Alphabetize the work by the title.
- "Hanging" Indentation should be selected in *Microsoft Word* under Format Paragraph.
