

# Is Online Learning for Me?

Students interested in taking an online course for the first time should take a brief self-inventory to see if online learning is “right” for them.

Follow these 3 quick, easy steps!

1. At <http://msde.mdk12online.org/index.asp>, enter Survey as your Username and Survey as your Password, then click once on Login and complete the self-check. Click Submit Quiz when finished.
2. Read your instant results!
3. Discuss your results with your guidance counselor.

## Remember...

- Each of us has strengths—and these strengths vary from person to person.
- Each of us has a preferred learning style.
- Taking an online course fits some of us better than others.
- Online courses are wonderful and SO are people who discover beforehand that online courses are not the best way for them to learn!
