*Bullying & Cyber Bullying
 Prevention Workshop*

Cyber-bullying is when a child, preteen or teen is tormented, threatened, harassed, humiliated, embarrassed or otherwise targeted by another child, preteen or teen using the internet, interactive and digital technologies or mobile phones. It has to have a minor child on both sides, or at least have been instigated by a minor against another minor. Once an adult becomes involved is plain and simple cyber-harassment or cyber stalking. Bullying and harassment can make life miserable no matter how old or young you are. When another person deliberately and repeatedly tries to be hurtful or to cross boundaries, children, teens and adults everywhere often feel frustrated and hopeless about the problem.
