June 17, 2020

Dear Intermediate (Grades 3-5) CRI and Regional Program Parents/Guardians,

Congratulations! You and your child made it through the school closure that started on March 16, 2020. The Department of Special Education wants you to know how much we appreciate your partnership with your child's teachers and support staff. Many creative instructional practices and materials have been used to help your child continue to work on their educational goals, including all of the hard work we know you have done at home. We want to offer the materials in this packet to you and your child as a way to allow continued growth over the summer. We know our students need the practice to keep their skills sharp!

This packet contains instructional activities in Reading, English, Language Arts, Math, Science, and Social Studies taught through the domains of Lifelong Learning, Daily Living, Personal Life, and Employability. The activities come with materials that you may print out and cut out if you choose. The instruction your child receives when he/she is in school or learning virtually is repeated over multiple days to help students learn and retain the skills and information. You may present the stories and learning activities more than one time to your child while at home.

This packet does not need to be turned in for grades. If you would like to share the completed pages with your child's teacher when school resumes in the new school year, it will provide that teacher with useful information about how your child's knowledge and skills have changed over the summer.

We wish you a healthy, happy, and restful summer. We can't wait to see you and your child for the 2020-2021 school year!

Sincerely,

Jennifer Brown
Instructional Supervisor for Special Programs
PGCPS Department of Special Education
At the Amusement Park
At the Amusement Park

Level B

by Jen Voight

Illustrated by Alex Wisehart
Zach is at the amusement park.
The merry-go-round moves slowly.
The roller coaster moves fast.
The pirate ship moves back and forth.
The water on the waterslide moves down.
The dart moves in the air.
What would you try?
The End
At the Amusement Park

How does the dart move?

- fast
- slow
- down
- back and forth
- in the air
Let's Ride!

Amusement parks have many types of rides.

You can choose what you want to ride.
The merry-go-round is a slow ride.

The floor spins around.

The seats move up and down.
Log rides are fun and wet! The logs float up and down hills. They make a big splash!
Bumper cars are small electric cars.

They bump into each other.

The force of the bump pushes other cars.
A free fall ride is fast.

A cart moves up a tall track.

It waits at the top.

It drops.

Gravity pulls the cart quickly down the track.
Roller coasters come in many sizes.

If a roller coaster has big hills, it moves fast.

Some go upside down.

Which ride will you choose?
Let's Ride!

Within each category, pictures are listed from left to right in the order in which they appear in the text.
1. The merry-go-round is a _ride._

2. Log rides float _and down hills._

3. The _of the bump pushes other cars._

4. _pulls the cart quickly down the track._

5. If a roller coaster has big hills, it moves _._

INDEPENDENCE DAY
July 4

Independence Day celebrates the U.S. becoming a country on July 4, 1776. Before that time, America was only 13 colonies ruled by England. People in the American colonies thought England’s laws were not fair. Leaders decided to make their own, free country. Leaders met in Philadelphia, Pennsylvania, and wrote down why America should be free. They created a document called the Declaration of Independence. The leaders signed the document on July 4, 1776.
The next year, Americans started celebrating Independence Day by ringing bells and lighting firecrackers on July 4. Today many people call Independence Day the Fourth of July. They celebrate by flying the American flag, watching parades and having cookouts. Many Americans watch beautiful fireworks shows at night. They celebrate the birthday of the U.S.!
INDEPENDENCE DAY

Independence Day is America’s birthday.

America became a country on July 4, 1776.

England had ruled the 13 colonies in America.

Americans thought England’s laws were not fair.

American leaders decided to make America free.
The leaders met in Philadelphia, Pennsylvania, in 1776. They wrote down why America should be free.

Leaders signed that Declaration of Independence on July 4.

The next year, Americans started celebrating that day.

They rang bells and lit firecrackers.
Now people call Independence Day, the Fourth of July.

To celebrate, people fly American flags, watch parades, and have cookouts.

Many people watch fireworks at night.

They celebrate the birthday of the U.S.!
