BACKGROUND:

Fifth- and sixth-grade students and teachers of Carmody Hills Elementary School will host their first technology gallery walk. The event will provide an opportunity for students to showcase their work and demonstrate the effective use of state-of-the-art technology in the classroom, including mini netbooks, interactive boards, Web 2.0 Tools, and desktop publishing.

During the 2009-2010 school year, Carmody Hills incorporated netbook technology in fifth- and sixth-grade classrooms. This netbook project is part of an ongoing effort to provide high-quality learning opportunities for students and teachers, as well as support academic achievement and parent involvement.
