BACKGROUND:

The Prince George’s County Public Schools Technology Training Team will hold the 13th Annual Powering Up With Technology Conference on Saturday, November 14. The conference will focus on the theme, “iTech, uTech, wiiTech,” and will offer teachers the opportunity to spend a day learning about best practices in classroom integration of technology.

   The event will feature a wide array of concurrent demonstrations and hands-on sessions focused on using technology to impact student achievement. In addition, 20-25 exhibitors will share new ideas and products. Student work submitted for the Digital Arts Contest will also be on display during the conference.

   Using his experience as a fifth-grade teacher and school technology specialist, keynote speaker Tony Vincent works with students, teachers, and schools around the country, inspiring them to use technology to do amazing things for teaching and learning. His address will focus on the topic 21 Strategies, Ideas, and Tips to Reach 21st Century Learners.

   Drawing an average of 600 educators annually, Powering Up With Technology welcomes participants from Prince George’s County Public Schools, local universities, and other public and nonpublic school districts in Maryland and surrounding states.
