

September 15th

The day we gather to celebrate

The day where we can enjoy our time together in harmony

The day that is filled with joy

We celebrate our independence

Countries from El Salvador, Guatemala, Honduras, Nicaragua

We prepare food like, tamales, pupusas, tostadas, and much more

The whole country comes together to celebrate our independence day

We can enjoy time together, we can eat together, we can drink together, we can be happy together.

It is the one day we can put our school and job aside.

And we can have one solely day to focus and celebrate our independence.

Even if we come to America we will never forget our independence day

We will never forget

September 15th
