COVID-19 Community Transmission and Vaccination

Per the [CDC updated guidance for COVID-19 Prevention in K-12 Schools](https://www.cdc.gov/coronavirus/2019-ncov/community/schools-universities/index.html), vaccination is considered the leading prevention strategy for those who are eligible, and **Prince George's County exceeds the percentage of U.S. vaccinations for ages 12 and above**. The CDC also emphasizes using multiple prevention strategies together consistently, included universal indoor masking, as needed based on the level of community transmission and vaccine coverage.
