Critical	>10	>1.39	>25	<30%
4/3/22	1.37%*	Unavailable	3.8 (as of 3/31)	50.0% (as of 4/3)

[Per the Maryland State Department of Education](#), universal contact tracing is no longer needed in schools and childcare programs but can be continued as resources allow. Schools and childcare programs should follow [CDC isolation guidance](#) to exclude students or staff for COVID-19 cases. Schools and childcare programs should provide notification of the COVID-19 case at the classroom or grade level as appropriate. When an outbreak is identified, schools and childcare programs should identify close contacts of all persons with COVID-19 through contact tracing and exclude them [per CDC guidance](#). Additional measures may also be implemented in consultation with the health department.

* CDC data reported from <https://covid.cdc.gov/covid-data-tracker>; local updates are delayed due a system outage at the Maryland Department of Health.

Data as of 4/4/2022

COVID-19 Community Level and Vaccination

Per the new [CDC COVID-19 Community Levels](#) and the [Maryland State Department of Education](#), people with COVID-19 symptoms, a positive test, or exposure to someone with COVID-19 should follow CDC guidance for isolation and quarantine and wear a mask regardless of the COVID-19 Community Level. According to the CDC, [vaccination](#) is considered the leading prevention strategy for those who are eligible.

Prince George's Community Level

 **Low** (as of 3/31/22)

CDC Metrics	Prince George's Level
New COVID-19 Cases per 100,000 people in the past 7 days (cumulative)	25.51 Low (<200.0)

Average Daily Case Rate (7-day Average by test date)

The average daily case rate in the middle of last week was 3.8 new cases per 100,000 residents. Our case rate has increased for over a week from our recent low of 2.3 cases per 100,000 residents. However, even with this increase we have remained “low risk” for over a month.

Average New COVID-19 Cases Per Day Per 100,000 Residents

Data as of 4/4/22

Healthcare System Available Capacity

There are a total of 982 hospital beds within the county (including surge beds). Our current available capacity is around 50% while 49% of beds are in use for other issues and 1% are in use for patients with COVID-19.
