

# Prince George's COVID-19 Metrics

Risk Level	Percent of Positive Tests	Infection Rate	Average Daily Case Rate per 100,000 population	Available Hospital Capacity
Low	0-3%	<0.9	1-5	>49.9%
Medium	3.1%-5%	0.9-1.10	5-10	40-49.9%
High	5.1%-10%	1.10-1.39	10-25	30-39.9%
Critical	>10	>1.39	>25	<30%
<b>4/13/22</b>	<b>2.77%*</b>	<b>1.29</b> (as of 4/5)	<b>7.4</b> (as of 4/9)	<b>48.5%</b> (as of 4/12)

[Per the Maryland State Department of Education](#), universal contact tracing is no longer needed in schools and childcare programs but can be continued as resources allow. Schools and childcare programs should follow [CDC isolation guidance](#) to exclude students or staff for COVID-19 cases. Schools and childcare programs should provide notification of the COVID-19 case at the classroom or grade level as appropriate. When an outbreak is identified, schools and childcare programs should identify close contacts of all persons with COVID-19 through contact tracing and exclude them [per CDC guidance](#). Additional measures may also be implemented in consultation with the health department.

\* CDC data reported from <https://covid.cdc.gov/covid-data-tracker>; local updates are delayed due a system outage at the Maryland Department of Health.

Data as of 4/13/2022

# COVID-19 Community Level and Vaccination

Per the new [CDC COVID-19 Community Levels](#) and the [Maryland State Department of Education](#), people with COVID-19 symptoms, a positive test, or exposure to someone with COVID-19 should follow CDC guidance for isolation and quarantine and wear a mask regardless of the COVID-19 Community Level. According to the CDC, [vaccination](#) is considered the leading prevention strategy for those who are eligible.

## Prince George's Community Level

 **Low** (as of 4/7/22)

CDC Metrics	Prince George's Level
New COVID-19 Cases per 100,000 people in the past 7 days (cumulative)	<b>42.12</b> Low (<200.0)
New COVID-19 hospital admissions per 100,000 population (7-day total)	<b>2.0</b> Low (<10.0)
Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average)	<b>1.60%</b> Low (<10.0%)

# Infection Rate for Prince George's County

Infection Rate for:

Maryland: 1.21

D.C.: 1.40

As of April 5, our infection rate was at 1.29, or “high risk”.

Estimated by [ovidActNow.org](https://www.ovidactnow.org)

Accessed 4/13/2022. Each data point is a 14-day weighted average. Presented as the most recent seven days of data as a dashed line, as data is often revised by states several days after reporting.

# Average Daily Case Rate (7-day Average by test date)

The average daily case rate at the end of last week was **7.4 new cases per 100,000 residents**. Our case rate has increased for over two weeks from a low of 2.3 cases per 100,000 residents (3/23).

### Average New COVID-19 Cases Per Day Per 100,000 Residents

Data as of 4/13/22

# Healthcare System Available Capacity

There are a total of 982 hospital beds within the county (including surge beds). Our current available capacity is around 48% while 51% of beds are in use for other issues and 1% are in use for patients with COVID-19.

## Available Hospital Capacity
