

# Prince George's COVID-19 Metrics\*

Risk Level	Percent of Positive Tests	Infection Rate	Average Daily Case Rate per 100,000 population	Available Hospital Capacity
Low	0-3%	<0.9	1-5	>49.9%
Medium	3.1%-5%	0.9-1.10	5-10	40-49.9%
High	5.1%-10%	1.10-1.39	10-25	30-39.9%
Critical (consider virtual learning)	>10%	>1.39	>25	<30%
<b>11/13/21</b>	<b>2.3%</b>	<b>0.97</b> (on 11/9)	<b>7.6</b>	<b>48.1%</b> (on 11/16)

\* The [Maryland State Department of Education](#) recommends that if the number of laboratory confirmed cases of COVID-19 meets the definition of an outbreak, the response decisions, including possible individual classroom or school/child care program closure and recommendations for COVID-19 testing of staff and students/children will be made by the Local Health Department. Given this guidance and high county vaccination uptake, unless criteria for countywide closure is met, our focus will be on case and contact identification and management within individual schools.

Data as of 11/17/21

# COVID-19 Community Transmission and Vaccination

Per the [CDC updated guidance for COVID-19 Prevention in K-12 Schools](#), vaccination is considered the leading prevention strategy for those who are eligible, and **Prince George’s County exceeds the percentage of U.S. vaccinations for ages 12 and above**. The CDC also emphasizes using multiple prevention strategies together consistently, included universal indoor masking, as needed based on the level of community transmission and vaccine coverage.

	Prince George’s County 11/7-11/13*	CDC Transmission Level
New Cases per 100,000 persons in the past seven days (cumulative)	53.2	<b>Substantial (50.00-99.99)</b>
Percentage of positive tests in the past seven days	2.3%	<b>Low (&lt;5.00)</b>

Resident Vaccination Status
