

# Prince George's COVID-19 Metrics\*

Risk Level	Percent of Positive Tests	Infection Rate	Average Daily Case Rate per 100,000 population	Available Hospital Capacity
Low	0-3%	<0.9	1-5	>49.9%
Medium	3.1%-5%	0.9-1.10	5-10	40-49.9%
High	5.1%-10%	1.10-1.39	10-25	30-39.9%
Critical (consider virtual learning)	>10%	>1.39	>25	<30%
<b>11/25/21</b>	<b>3.1%</b>	<b>1.03</b> (on 11/21)	<b>8.2</b>	<b>47.1%</b> (on 11/28)

\* The [Maryland State Department of Education](#) recommends that if the number of laboratory confirmed cases of COVID-19 meets the definition of an outbreak, the response decisions, including possible individual classroom or school/child care program closure and recommendations for COVID-19 testing of staff and students/children will be made by the Local Health Department. Given this guidance and high county vaccination uptake, unless criteria for countywide closure is met, our focus will be on case and contact identification and management within individual schools.

Data as of 11/29/21

# COVID-19 Community Transmission and Vaccination

Per the [CDC updated guidance for COVID-19 Prevention in K-12 Schools](#), vaccination is considered the leading prevention strategy for those who are eligible, and **Prince George’s County exceeds the percentage of U.S. vaccinations for ages 12 and above**. The CDC also emphasizes using multiple prevention strategies together consistently, included universal indoor masking, as needed based on the level of community transmission and vaccine coverage.

	Prince George’s County 11/9-11/15*	CDC Transmission Level
New Cases per 100,000 persons in the past seven days (cumulative)	57.4	<b>Substantial (50.00-99.99)</b>
Percentage of positive tests in the past seven days	3.1%	<b>Low (&lt;5.00)</b>

Resident Vaccination Status

# Testing: Percent Positive (past 7 days by test date)

The percent of tests returning as positive for county residents was 3.1% in the middle of last week. **We have increased to over 3.0% for the first time since the beginning of October.**

Percent of Positive COVID-19 Tests by Date Collected (as of 11/29/21)

# Infection Rate for Prince George's County

**Infection Rate for:**  
Maryland: 1.05  
D.C.: 0.82

As of November 21, our infection rate was at 1.03, or “medium risk” and is increasing.

**Estimated by ovidActNow.org**

Accessed 11/29/2021. Each data point is a 14-day weighted average. Presented as the most recent seven days of data as a dashed line, as data is often revised by states several days after reporting.

# Average Daily Case Rate (7-day Average by test date)

The daily case rate in the middle of last week was 8.2 new cases per 100,000 resident. While this looks lower than the previous days this is due to lower testing and identified cases on the holiday last week. Our case rate overall has crept up over the last couple of weeks.

Average New COVID-19 Cases Per Day Per 100,000 Residents

Data as of 11/29/21

# Healthcare System Available Capacity

There are a total of 982 hospital beds within the county (including surge beds). Our current available capacity is around 47% while 44% of beds are in use for other issues and 9% are in use for patients with COVID-19.

## Available Hospital Capacity (7-day average)
