* The [Maryland State Department of Education](#) recommends that if the number of laboratory confirmed cases of COVID-19 meets the definition of an outbreak, the response decisions, including possible individual classroom or school/child care program closure and recommendations for COVID-19 testing of staff and students/children will be made by the Local Health Department. Given this guidance and high county vaccination uptake, unless criteria for countywide closure is met, our focus will be on case and contact identification and management within individual schools.

Average Daily Case Rate (7-day Average by test date)

The daily case rate at the end of last week was **8.0 new cases per 100,000 resident**. While this looks lower than the previous days this is likely due to lower testing and identified cases over the holiday last week. Our case rate overall has crept up over the last couple of weeks.
