Potomac HS Community School

What did we learn?

Student Feedback

37.7 % of students stated that there is high-quality learning instruction including field trips, STEM activities, and extended day opportunity

46.4% of the students stated they sometimes get additional support in this area

Staff Feedback

N/A

Family Feedback

% of the families committed on the area.

We are currently working on getting more parent participation and involvement for all in-school and out-of-school programs. When any after-school parent meetings, testing alerts so parents can best help prepare their students are going on, a robocall is sent out to all parents of Potomac HS.

Community Feedback

Our Community Partners are willing to provide resources (as long as said resources meet their company's guidelines) to help out in this area. We are also seeking out additional providers to provide additional support when needed.

Priorities and Opportunities

Rigorous, Community-Connected Classroom Instruction and Expanded, Enriched Learning Opportunities

Potomac High School can expand access to STEM, tutoring, and extended-day programs by deepening partnerships. There's a need to strengthen reading and math interventions while connecting learning to real-world experiences through field trips and hands-on enrichment.

Collaborative Leadership, Shared Power, and Voice

Families and students need clearer pathways to participate in decision-making and leadership roles. This can be done by creating a parent organization within the school as well as a student council which will build a stronger sense of shared ownership across the school community.

Integrated Systems of Support

While some services are in place, families and students are not always aware of them, and needs like vision, dental, and mental health remain high. Building stronger health partnerships and improving communication about available supports can help ensure students' basic needs are met.

Culture of Belonging, Safety, and Care

Students and families feel welcomed, but a few students felt unsure on how to open up to adults. Prioritizing staff-student relationship building and providing culturally responsive, trauma-informed practices will strengthen emotional safety and inclusion.

Powerful Student and Family Engagement

Family event participation is steady, but leadership involvement for families could be stronger as some groups remain underrepresented. Strengthening outreach, offering flexible engagement options, and promoting leadership opportunities will deepen family-school partnerships.
