A group of diverse children are gathered around a long wooden table in a library, participating in a hands-on workshop. In the foreground, a young boy with a joyful expression holds a small, intricate, wireframe sculpture. He is wearing a grey patterned sweater over a red collared shirt. To his right, a girl in a pink shirt is focused on a small electronic device. Further down the table, a young girl in a white shirt is also working on a similar device. On the far right, another girl in a red and white striped shirt is looking at her work. The table is cluttered with various materials: a bowl of colorful beads, a keyboard, a pair of glasses, a pink circular object, and several sheets of paper, one of which features a graphic of a pair of glasses and the text 'Integer Classics'. The background shows other people and the warm, well-lit interior of a library.
