In response to the boil water advisory issued by WSSC, Prince George's County Public Schools is implementing a number of strategies to ensure the health and safety of our students and employees. The following actions are underway:

- All impacted schools will receive bottled water to meet the needs of the students and staff in each building.
- There will be no interruptions or changes to meal services as most food items are oven prepared. Impacted school cafeterias are boiling water for use of hand washing and all cleaning needs.
- Parents will be notified by robo-call of any changes to bus stops and routes, particularly around the Tanglewood Drive area where WSSC is conducting repair.

The list of impacted schools and sites include:
