

School-Based Health Centers

Keeping kids healthy where they learn, live and play

School-Based Health Centers (SBHCs) provide primary care services to students in Prince George's County Public Schools (PGCPS) school buildings. These centers are staffed by Children's National team members in collaboration with PGCPS Office of School Health. SBHCs may serve as a student's primary health care provider or complement the services they normally receive. PG County SBHCs are open to all PGCPS students; PGCPS students may visit an SBHC in any participating school. The SBHCs are open Monday–Friday, 8 a.m.–4 p.m. (open during lunch periods).

How to Sign Up: Visit the website below, call your local SBHC or visit a SBHC in-person.
