Greetings Fort Foote Parents/Guardians:

In order to make sure our focus is on academic achievement during the closing of all Maryland schools, we are providing opportunities for our Fort Foote students to complete assignments that will serve as an extension to our daily instruction. To assist with this endeavor, we are allowing students to bring home their textbooks to review previously taught skills and engage in enrichment activities. The textbooks will serve as an additional resource that can be utilized at home.

Fort Foote Reading and Social Studies teachers have assigned reading texts, reading logs, pages, and/or assignments (additional packets, projects, etc.) for students to complete. Fort Foote Math and Science teachers have assigned certain pages or assignments to be completed during the closing of school from their textbooks. We are asking all Fort Foote students to complete all of the assigned pages. Please see below for the specific Math, Reading, Science, and Social Studies assignments that are to be completed. This information will be posted on the Fort Foote Website, individual grade level websites, Class Dojo, and Dr. Goldsmith's parent email tree.

**Reading and Language Arts and Social Studies Assignments**

**Grades K-2 Assignments**
- Students will complete 2 Reading Logs (March 12th-19th and March 19th-26th).

In addition, teachers may send home additional work (packets and/or projects) for students to complete. Students can utilize computer resources such as ixl.com for extra practice. Students can also access their textbooks online by following the steps below. Please reach out to your classroom teacher via email if there are any problems with logging on to ixl.com or student passwords and usernames for their online textbooks.

1. Go to www.pgcps.org
2. Click on the Options tab on the upper right hand side of the page.
3. From the Options tab click on Student Resources.
4. Click on the Log-in to Clever option
5. Select Log-in with Active Directory.
6. Students will log in using their pgcps username and passwords.
