March 13, 2020

Dear Parents,

Things are happening very quickly and there is a lot going on, but here are some things that you can do with your child during the next 2 weeks to promote continued learning.

- Read to them every day. Ask them questions about the story.
- Practice writing their name with a capital letter at the beginning and lowercase letters for the rest. When they have mastered that, they can start working on their last name. (Do not stress them out, or yourself with this activity, 5 to 10 minutes is plenty.)
- Practice finding letters in books, magazines and in the environment.
- Ask them to tell you something that begins with a certain letter.
- Draw pictures.
- Count objects around the house or in the environment.
- Practice writing numbers.
- Practice counting out loud to 20, or more if they can.
- Practice identifying shapes around your house.
- Go outside and identify signs of Spring.
- Have your child help you with a cooking activity in the kitchen, it is great for learning measuring.
- Sing songs, do dances.
- Play with them.

During this break, I will still be available through Remind or email if you have any questions.
