Greetings Parents and/or Guardians,

Please know that with the continuation of distance learning at home, we realize that there have been many questions about students being required to be seen and heard during LIVE lessons. While we would expect all students to be engaged visibly and verbally during LIVE lessons, you as the parent and/or guardian may choose for your child to “opt-out,” meaning request that your child not be seen or heard during LIVE lessons.

If you wish to opt-out, a Google form located on our school’s website has been created for Central High School parents to use. I ask that all parents complete the form no later than Thursday, September 10, 2020. Please know that It is the parent and/or child’s responsibility to ensure that video and audio features are disabled during LIVE lessons.

As the parent and/or guardian if you choose to not opt-out of having your child be seen and heard during LIVE sessions, no further action is required.

Sincerely,

Sheree Savoy

Principal
